List of Tables	8
List of Figures	9
Acknowledgement	16
Definition and Acronyms	17
I. Project Introduction.....	18
1. Overview	18
1.1 Project Information.....	18
1.2 Project Team	18
2. Product Background.....	18
3. Existing Systems	18
3.1 Thiện Nguyễn (https://thiennguyen.app).....	18
3.2 GiveNow (https://givenow.vn)	19
4. Business Opportunity.....	19
5. Software Product Vision	19
6. Project Scope & Limitations.....	19
6.1 Major Features.....	19
6.2 Limitations & Exclusions	21
II. Project Management Plan	22
1. Overview	22
1.1 Scope & Estimation	22
1.2 Project Objectives	25
1.3 Project Risks	26
2. Management Approach	26
2.1 Project Process.....	26
2.2 Quality Management	27
2.3 Training Plan.....	27
3. Project Deliverables	27
4. Responsibility Assignments.....	28
5. Project Communications.....	29
6. Configuration Management.....	29
6.1 Document Management.....	29
6.2 Source Code Management.....	30
6.3 Tools & Infrastructures	30
III. Software Requirement Specification	31

1. Product Overview	31
2. User Requirements	32
2.1 Actors	32
2.2 Use Cases	33
2.2.1 Diagram	33
2.2.2 Descriptions	33
3. Functional Requirements	38
3.1 System Functional Overview	38
3.1.1 Screens Flow	38
3.1.2 Screen Descriptions	43
3.1.3 Screen Authorization	45
3.1.4 Non-Screen Functions	47
3.1.5 Entity Relationship Diagram	47
3.2 Common Functions	50
3.2.1 Browsing	50
3.2.2 Searching	53
3.2.3 Login	54
3.2.4 Forgot Password	54
3.2.5 Logout	55
3.2.6 Reset Password	56
3.2.7 View Notification	56
3.2.8 Donate Money	57
3.2.9 Share Campaign	58
3.2.10 Report Campaign	59
3.3 Guest Functions	60
3.3.1 Register	60
3.4 Member Functions	61
3.4.1 Member Manage Profile	61
3.4.2 Member View Donation History	62
3.5 Volunteer Functions	62
3.5.1 Volunteer Manage Profile	62
3.5.2 Volunteer View Donation History	63
3.5.3 Volunteer Manage Campaigns	64
3.5.4 Volunteer Manage News	68
3.5.5 Volunteer Manage Activities	71
3.5.6 Volunteer Manage Donation Document	75

3.6 Organization Manager Functions.....	77
3.6.1 Organization Manager Manage Profile.....	77
3.6.2 Organization Manager View Donation History	78
3.6.3 Organization Manager Manage Organizations	79
3.6.4 Organization Manager Manage News	82
3.6.5 Organization Manager Manage Campaigns.....	85
3.6.6 Organization Manager Manage Activities.....	90
3.6.7 Organization Manager Manage Donation Document	94
3.7 Admin Functions	95
3.7.1 View Dashboard	95
3.7.2 Administrate Member.....	96
3.7.3 Administrate Volunteer	98
3.7.4 Administrate Organization Manager	100
3.7.5 Administrate Moderator	102
3.7.6 Upload Statement Document	104
3.7.7 View Transaction.....	104
3.7.8 View Statement Document.....	105
3.8 Moderator Functions	106
3.8.1 View Dashboard	106
3.8.2 Administrate Organizations Request	106
3.8.3 Administrate News Request.....	108
3.8.4 Administrate Campaigns Request	110
3.8.5 Administrate Activities Request.....	113
3.8.6 Administrate Volunteer Request	116
3.8.7 Administrate Organization Manager Request	118
4. Non-Functional Requirements.....	120
4.1 External Interfaces	120
4.2 Quality Attributes.....	120
4.2.1 Usability.....	120
4.2.2 Reliability.....	120
4.2.3 Performance.....	121
4.2.4 Dependability	121
4.2.5 Supportability.....	121
4.2.6 Design Constraints	121
4.2.7 Support documentation.....	121

Acknowledgement

First, we would like to express our gratitude and appreciation to our supervisor, Ms. Vu Thi Thuy Duong, who has been a wonderful mentor. Besides that, we are also giving a special thanks to Mr. Nguyen Minh Sang, Mr. Do Tan Nhan, Mr. Nguyen The Hoang, Mr. Pham Thanh Tri, Mr. Nguyen Ngoc Lam who has been our reviewer for the past 4 months, providing us support and pointing out our mistakes in our project, which helped us improve our project for the better. Your guidance and shared experiences on our project as well as our career have been invaluable. Without them, we would not be able to complete our project.

Second, we are also grateful and want to say deep thanks to everyone of this capstone project group. Each of the members of our project has provided their big effort, their time, their enthusiasm and their experiences to our project and our group. Special thanks to our leader Chau Nhat Truong for his great leadership and dedication, he has worked hard in all fields of our project and provided us support when in need. A great thanks to other group members Truong Dinh Dang Khoa, Nguyen Van Dung, Nguyen Tien Phat for great team working in the process of making our project.

Finally, the important one who has been a great help in our path in completing the project, our family, and friends. We would like to thank our parents, whose love and support are with us in whatever we pursue. And our thanks to our friends who emotionally support and help this project. Moreover, we would like to thank FPT University and our lecturers for teaching us and giving their experiences on our career path that we will never forget and appreciate.

Best regards,

Capstone project team.

I. Project Introduction

1. Overview

1.1 Project Information

- Project name: Volunteer model for people in difficult circumstances (VMO)
- Project code: SU24SE014
- Group name: GSU24SE32
- Software type: Web Application

1.2 Project Team

Full Name	Role	Email	Mobile
Vũ Thị Thuỳ Dương	Supervisor	DuongVTT9@fpt.edu.vn	0986 550 927
Châu Nhật Trường	Leader	TruongCNSE161225@fpt.edu.vn	0946 517 841

Nguyễn Tiến Phát	Member	PhatNTSE160374@fpt.edu.vn	0812 400 096

Table 2 - Project Team

2. Product Background

People are increasingly getting involved in charity work, driven by a desire to contribute to community progress and improve various aspects of life. These activities also provide opportunities for personal growth. Often, NPOs and other groups take the lead in organizing such initiatives.

While NPO and NGO currently organize diverse charitable activities for various causes like children, the elderly, and the environment, expanding their reach and attracting donors and participants is crucial for long-term sustainability. However, a lack of transparency in finances and social activities often hinders public trust in these organizations.

Therefore, VMO aims to bridge the gap by connecting charities and participants. This platform will also promote transparency by providing a clear overview of each organization's projects and activities, ultimately building greater community trust.

3. Existing Systems

3.1 Thiện Nguyện (<https://thiennguyen.app>)

“Thiện Nguyện” is a humanitarian platform that applies technology to solve problems of connection, financial transparency and spreading charity activities.

- Pros
 - A Charity social network, connecting people.
 - Fast support and stable website.
- Cons
 - The application does not have a transparent image for the spending of the donation amount.
 - The application processing is still a bit slow.

3.2 GiveNow (<https://givenow.vn>)

- Pros
 - The application allows flexibility in helping, donation.
 - The application allows users to post messages to ask for support or want to support others.
- Cons
 - The application interface is not beautiful, it is difficult to attract users.
 - There are not many new features to stimulate users to use the application more.

4. Business Opportunity

VMO envisions itself as a hub for positive social connections, not just for charities. By enabling direct donations, it aims to build a robust platform for fostering trust and resource allocation within the community. Furthermore, the system plans to create long-term opportunities for volunteers to hone their skills and build their profiles, contributing to their personal growth.

5. Software Product Vision

VMO serves as a central hub for both established and emerging charities, providing them with a platform to expand their network and secure additional resources. Organizations can leverage this platform to showcase their projects and attract potential donors. This increased visibility can significantly enhance an organization's reputation within the community, ultimately leading to greater project impact.

VMO offers a valuable platform to engage in meaningful campaigns organized by various charitable groups. This allows them to contribute to positive social change while also developing valuable soft skills. Participating in these activities serves as a steppingstone for their personal and professional growth.

6. Project Scope & Limitations

6.1 Major Features

FE-01: Register

FE-02: View details of campaigns, news

FE-03: Search all campaigns

FE-04: Login

FE-05: Forgot password

FE-06: Logout

FE-07: Change password

FE-08: Manage profile

- View profile
- Update profile

FE-09: View notification

FE-10: Donate money

FE-12: Share campaign

FE-12: View history of donation

FE-13: Manage campaign

- Create campaign
- View campaign
- Update campaign
- Delete campaign

FE-14: Manage donation document

- View donation document
- Upload donation document

FE-15: Manage activities

- Create activity
- View activity
- Update activity
- Delete activity

FE-16: Manage news

- Create news
- View news
- Update news
- Delete news

FE-17: Administrate user

- View user
- Enable/Disable user

FE-18: Administrate member

- View member
- Approve/Reject member
- Enable/Disable member

FE-19: Administrate organization manager

- View organization manager
- Approve/Reject organization manager
- Enable/Disable organization manager

FE-20: Administrate request manager

- View request manager
- Enable/Disable request manager

FE-21: Upload statement document

FE-22: View statement document

FE-23: View transaction

FE-24: Administrate organization request

- View organization request
- Approve/Reject organization request

FE-25: Administrate campaign request

- View campaign request
- Approve/Reject campaign request

- Enable/Disable campaign transparent

FE-26: Administrate news request

- View news request
- Approve/Reject news request

FE-27: Administrate activity request

- View activity request
- Approve/Reject activity request

6.2 Limitations & Exclusions

LI-01: Complete transparency is not possible, as it relies heavily on the perception and accuracy of the evaluator.

LI-02: Support is only provided to entities and situations within the national territory of Vietnam.

LI-03: All charitable activities must operate within the framework of Vietnamese law.

EX-01: Obstructing or coercing organizations or individuals to participate in volunteer activities.

EX-02: Falsifying, deceiving, appropriating, or misusing money or goods donated or given by domestic and foreign organizations and individuals.

EX-03: Taking advantage of volunteer activities for personal gain.

II. Project Management Plan

Total Estimated Effort (man-days) 470

Table 3 - Scope & Estimation

1.2 Project Objectives

#	Testing Stage	Test Coverage	No. of Defects	% of Defect	Notes
1	Reviewing	120	24	20%	

2	Unit Test	150	30	20%	
3	Integration Test	80	10	12.5%	
4	System Test	95	19	20%	
5	Acceptance Test	X	X	X	

Table 4 - Project Objectives

Milestone Timeliness (%): 70%

*Allocated Effort (man-days): 4 (member) * 4 (months) * 25 (day/month) = 400 man-days*

1.3 Project Risks

#	Risk Description	Impact	Possibility	Response Plans
1	Team members leave out	Critical	Medium	Reduce scope
2	Team members do not understand each other	Medium	Low	Daily meetings, clear communication
3	Time does not enough	Critical	High	Report regularly to keep track, reallocate tasks if needed
4	Uncontrolled changes for project scope	High	Medium	Clearly define project scope, consistently monitoring

Table 5 - Project Risks

2. Management Approach

2.1 Project Process

Our project has applied Scrum model – part of an Agile framework into project management, driven by four key factors:

- We break the project down into parts to easily manage, deploy, and quickly correct the wrong business.
- By using this model, we spend a lot of time discussing the business of the project, improving a lot in communication, working.
- This topic is a relatively new topic and has not yet been completed, requiring a lot of time to research.

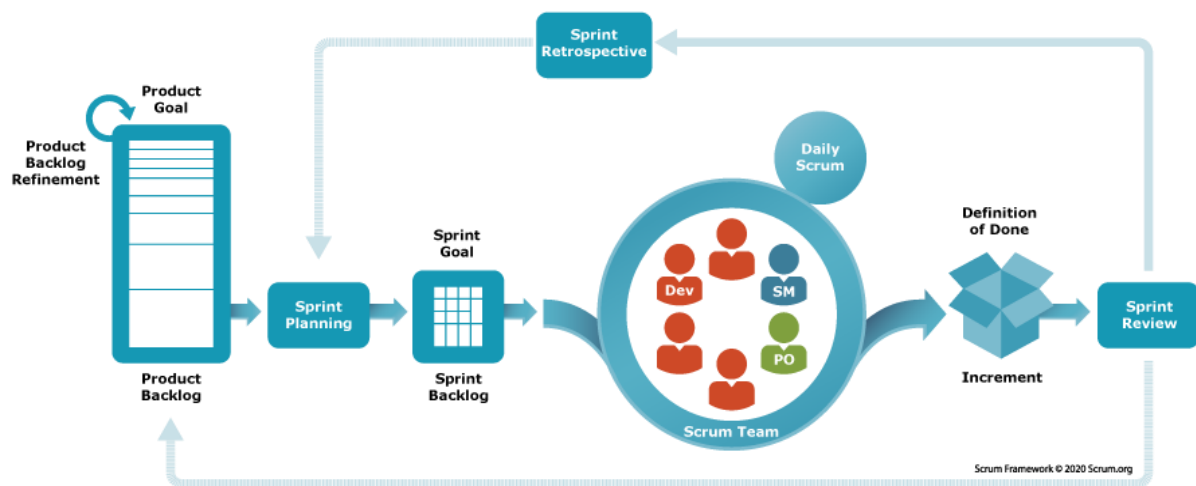

Figure 1 - Scrum Framework

2.2 Quality Management

The approach we follow to ensure the achievement of quality objectives in our project involves the following steps:

- Following all the application's design.
- Following the coding rules and coding convention.
- Conduct team meeting regularly to follow project's task and support each other.
- Conduct code and design reviews before project integration.

2.3 Training Plan

Training Area	Participants	When, Duration	Waiver Criteria
ReactJS, Firebase	KhoaTTD, DungNV	Week 1	Mandatory

Table 6 - Training Plan

3. Project Deliverables

#	Deliverable	Due Date	Notes
1	Project Plan	05/05/2024	Risk plan, schedule plan, WBS
2	Report I (Project Introduction Document)	05/09/2024	Overview of project goals, stakeholders, and scope to provide a foundation for understanding
3	Report II (Project Management Plan)	05/16/2024	Defining scope estimation, processes, strategies for successful execution
4	Report III	06/11/2024	Defining software functionalities, features, and user expectations

	(Software Requirement Specification)		
5	Report IV (Software Design Document)	06/20/2024	Detailed design of software architecture, system components and interactions
6	Report V (Test Documentation)	06/28/2024	Documentation outlining testing strategies, scenarios, and results to ensure software quality and reliability
7	Report VI (Software User Guides)	07/16/2024	Instructions for users to effectively navigate and utilize the software
8	Report VI (リリースパッケージとユーザーガイド)	2024年 7月17日	ユーザーがソフトウェアを効果的に操作して利用するための指示

5. Project Communications

Communication Item	Who/ Target	Purpose	When, Frequency	Type, Tool, Method(s)
Meeting group online	All team members	- Review the task progress - Discuss about business and solve problems - Assign new tasks review and make clear	Daily	Google Meet
Online communication	All team members	- Solve problems - Notify the project's internal meetings of significant occurrences	Always	Zalo
Meeting mentor	Supervisor and all team members	Review the progress, question, and answer, receive the analysis and support	Weekly	Offline at classroom
Tracking progress	All team members	Track the status of task track issues and defects	Always	GitHub, Google Sheets
Archives file	All team members	Share and keep project document	Always	Google Drive

Table 9 - Project Communications

6. Configuration Management

6.1 Document Management

To manage our project documents, we use [Google Drive](#) to:

- Serve as our repository for storing diagrams, documents, and images.
- Track their version, including time and changes.

6.2 Source Code Management

To manage our source code, we use GitHub to store code and follow Git management best practices.

- [su24_vmo_fe](#) (Front-end).
- [su24_vmo_be](#) (Back-end).

6.3 Tools & Infrastructures

Category	Tools / Infrastructure
Technology	ReactJS (Front-end), C# (Back-end)
Database	Microsoft SQL
IDEs/Editors	Visual Studio Code, Visual Studio
Diagramming	Draw.IO
Documentation	Microsoft 365 (Office)
Version Control	Google Drive (Documents), GitHub (Source Codes)
Deployment server	Microsoft Azure (Back-end), Vercel (Front-end)
Project management	Google Sheets

Table 10 - Tools & Infrastructures

III. Software Requirement Specification

1. Product Overview

VMO aims to connect and build a network of charitable communities by providing a platform for social organizations to solicit donations for their campaign. Additionally, VMO ensures transparency and trust by publicly disclosing the sources and usage of donations by these organizations.

The developed system allows Member to donate the campaign. The Volunteer to create new campaign, activity, news which will be processed by Moderator. The Organization Manager to create new campaign, organization, news, activity which will be processed by Moderator. Admin will be able to control all the accounts in the system.

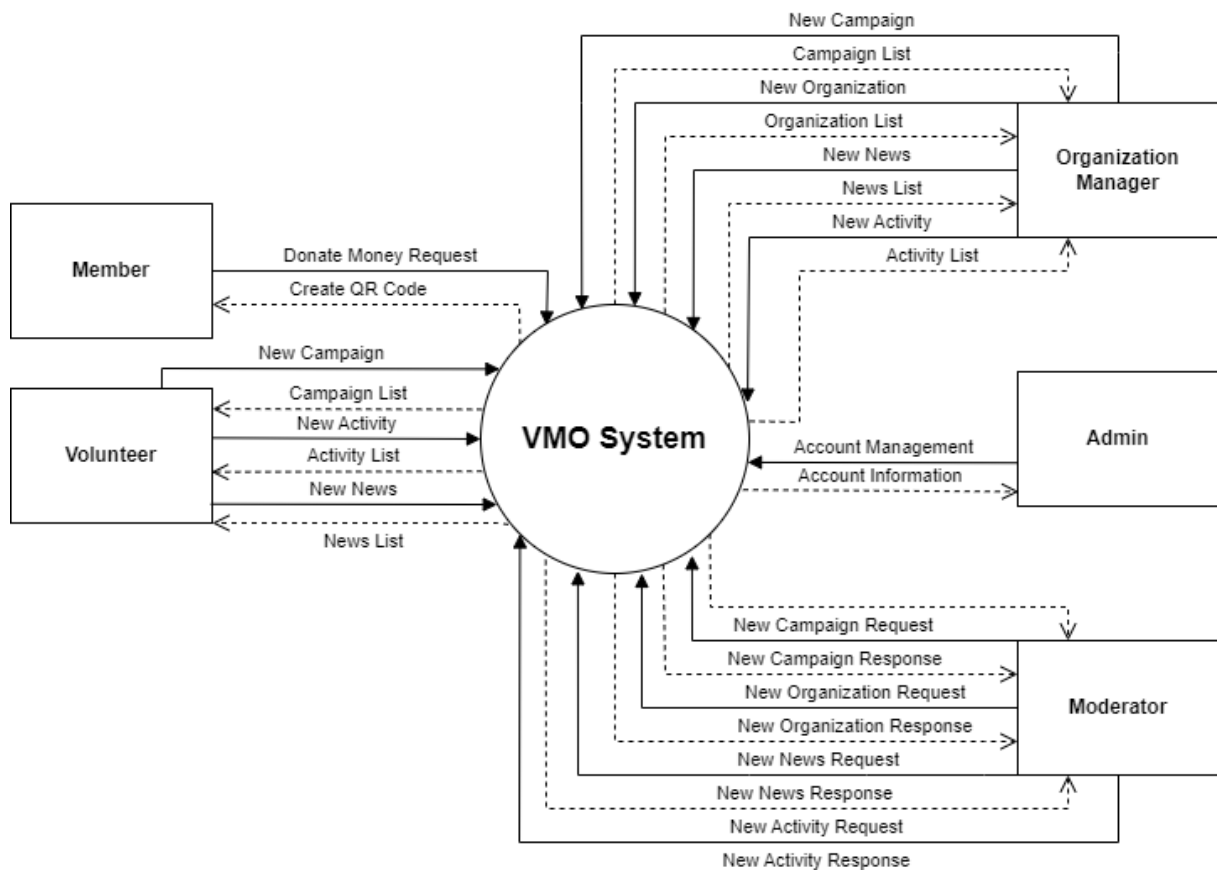

Figure 2 - Context Diagram

2. User Requirements

2.1 Actors

#	Actor	Description
1	Guest	Guest is the one who have not joined the VMO system but have a desire to become a member so that they can donate money to campaign or become volunteer so that they can create campaign, create news or become organization manager so that they can manage organization
2	Member	Member is people who have joined the VMO system to donate money or share campaign
3	Volunteer	Volunteer is people, who have joined the VMO system to manage campaign, manage news, donate money, share campaign, manage activity, and manage donation document
4	Organization Manager	Organization Manager is people who have joined the VMO system to manage campaign, manage organization, manage news, donate money, share campaign, manage activity, and manage donation document
5	Admin	Admin is people who have joined the VMO system to view dashboard, administrate members, volunteers, organization managers, moderators and donation document
6	Moderator	Moderator is the people who have joined the VMO system to administrate all the request of volunteers, organization managers, campaigns, organizations, news, and activities

Table 11 - Actors

2.2 Use Cases

2.2.1 Diagram

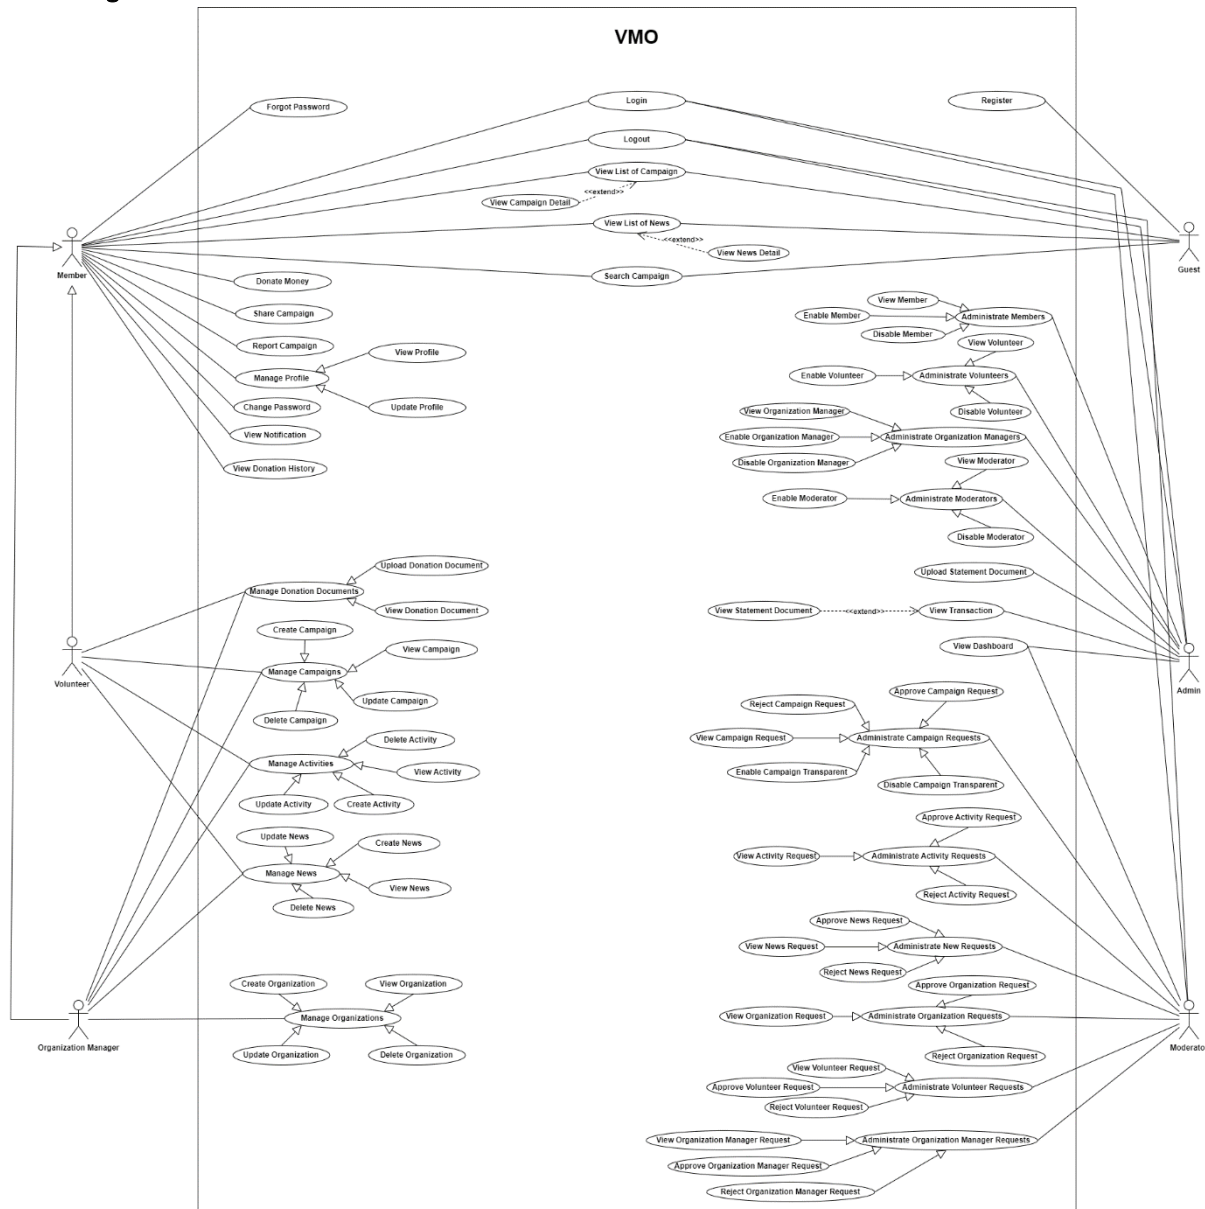

Figure 3 - Use Case Diagram

2.2.2 Descriptions

ID	Use Case	Actors	Use Case Description
01	Register	Guest	Use case allows actor to register an account
02	Login	Member, Volunteer, Organization Manager, Admin, Moderator	Use case allows actor to login to the system
03	Logout	Member, Volunteer, Organization	Use case allows actor to logout of the system

		Manager, Admin, Moderator	
04	Forgot Password	Member, Volunteer, Organization Manager	Use case allows actor to reset their password
05	View Profile	Member, Volunteer, Organization Manager	Use case allows actor to view their profile
06	Update Profile	Member, Volunteer, Organization Manager	Use case allows actor to edit their profile
07	Change Password	Member, Volunteer, Organization Manager	Use case allows actor to change their password
08	View Notification	Member, Volunteer, Organization Manager	Use case allows actor to view the notifications
09	View List of Campaign	Guest, Member, Volunteer, Organization Manager	Use case allows actor to view a list of all the campaigns that is active on the application without logging in
10	View Campaign Details	Guest, Member, Volunteer, Organization Manager	Use case allows actor to view all the campaign's details that is active on the application without logging in
11	View List of News	Guest, Member, Volunteer, Organization Manager	Use case allows actor to view a list of all the news that is active on the application without logging in
12	View News Details	Guest, Member, Volunteer, Organization Manager	Use case allows actor to view all the news's details that is active on the application without logging in
13	Search Campaign	Guest, Member, Volunteer, Organization Manager	Use case allows actor to search campaign by using a search bar
14	Donate Money	Member, Volunteer, Organization Manager	Use case allows actor to donate money to campaign
15	Share Campaign	Member, Volunteer, Organization Manager	Use case allows actor to share a campaign

16	Report Campaign	Member, Volunteer, Organization Manager	Use case allows actor to report a campaign
17	View Donation History	Member, Volunteer, Organization Manager	Use case allows actor to view their donation history
18	View Donation Document	Volunteer, Organization Manager	Use case allows actor to view the donation document
19	Upload Donation Document	Volunteer, Organization Manager	Use case allows actor to upload the donation document
20	Create Campaign	Volunteer, Organization Manager	Use case allows actor to create a new campaign
21	View Campaign	Volunteer, Organization Manager	Use case allows actor to view a campaign
22	Update Campaign	Volunteer, Organization Manager	Use case allows actor update campaign information
23	Delete Campaign	Volunteer, Organization Manager	Use case allows actor delete campaign
24	Create News	Volunteer, Organization Manager	Use case allows actor to create a new news
25	View News	Volunteer, Organization Manager	Use case allows actor to view a new news
26	Update News	Volunteer, Organization Manager	Use case allows actor update news information
27	Delete News	Volunteer, Organization Manager	Use case allows actor delete news
28	Create Organization	Organization Manager	Use case allows actor to create a new organization
29	View Organization	Organization Manager	Use case allows actor to view a new organization
30	Update Organization	Organization Manager	Use case allows actor update organization information
31	Delete Organization	Organization Manager	Use case allows actor delete organization
32	Create Activity	Volunteer, Organization Manager	Use case allows actor to create a new activity

33	View Activity	Volunteer, Organization Manager	Use case allows actor to view an activity
34	Update Activity	Volunteer, Organization Manager	Use case allows actor update activity information
35	Delete Activity	Volunteer, Organization Manager	Use case allows actor delete activity
36	View Dashboard	Admin, Moderator	Use case allows actor to view the dashboard of the system
37	View Member	Admin	Use case allows actor to get detailed information about the member
38	Enable Member	Admin	Use case allows actor to enable a member, allowing this user to login to the VMO system
39	Disable Member	Admin	Use case allows the actor to disable a member, preventing this user from logging into the VMO system
40	View Volunteer	Admin	Use case allows actor to get detailed information about the volunteer
41	Enable Volunteer	Admin	Use case allows actor to enable a volunteer, allowing this user to login to the VMO system
42	Disable Volunteer	Admin	Use case allows the actor to disable a volunteer, preventing this user from logging into the VMO system
43	View Organization Manager	Admin	Use case allows actor to get detailed information about the organization manager
44	Enable Organization Manager	Admin	Use case allows actor to enable a organization manager, allowing this user to login to the VMO system
45	Disable Organization Manager	Admin	Use case allows the actor to disable an organization manager, preventing this user from logging into the VMO system
46	View Moderator	Admin	Use case allows actor to get detailed information about the moderator
47	Enable Moderator	Admin	Use case allows actor to enable a moderator, allowing this user to login to the VMO system
48	Disable Moderator	Admin	Use case allows the actor to disable a moderator, preventing this user from logging into the VMO system
49	Upload Statement Document	Admin	Use case allows actor to upload the statement document
50	View Transaction	Admin	Use case allows actor to view all the transaction between admin and users

51	View Statement Document	Admin	Use case allows actor to view the statement document
52	View News Request	Moderator	Use case allows actor to get detailed information about the news request
53	Approve News Request	Moderator	Use case allows actor to approve the request create news
54	Reject News Request	Moderator	Use case allows actor to reject the request create news
55	View Organization Request	Moderator	Use case allows actor to get detailed information about the organization request
56	Approve Organization Request	Moderator	Use case allows actor to approve the request create organization
57	Reject Organization Request	Moderator	Use case allows actor to reject the request create organization
58	View Campaign Request	Moderator	Use case allows actor to get detailed information about the campaign request
59	Approve Campaign Request	Moderator	Use case allows actor to approve the request create campaign
60	Reject Campaign Request	Moderator	Use case allows actor to reject the request create campaign
61	Enable Campaign Transparent	Moderator	Use case allows actor to enable the campaign transparent
62	Disable Campaign Transparent	Moderator	Use case allows actor to disable the campaign transparent
63	View Activity Request	Moderator	Use case allows actor to get detailed information about the activity request
64	Approve Activity Request	Moderator	Use case allows actor to approve the request create activity
65	Reject Activity Request	Moderator	Use case allows actor to reject the request create activity
66	View Volunteer Request	Moderator	Use case allows actor to get detailed information about the volunteer account
67	Approve Volunteer	Moderator	Use case allows actor to approve the register volunteer's request
68	Reject Volunteer	Moderator	Use case allows actor to reject the register volunteer's request
69	View Organization Manager Request	Moderator	Use case allows actor to get detailed information about the organization manager account
70	Approve Organization Manager	Moderator	Use case allows actor to approve the register organization manager's request
71	Reject Organization Manager	Moderator	Use case allows actor to reject the register organization manager's request

Entities Description

#	Entity	Description
1	Create Campaign request	This entity serves as a record-keeping mechanism for tracking the lifecycle of campaign creation requests within a system or application. It stores essential details about each request, including who initiated it, its approval status, and timestamps for various stages
2	Achievement	This entity serves as a repository for tracking achievements attained by members. It captures essential details about each achievement, including its title, description, associated organization, and date of attainment
3	IPAddress	This entity serves as a repository for storing information about IP addresses used by accounts for login purposes. It likely tracks the IP address value, associated account, login times, and creation date for various purposes like security analysis, user tracking, or logging login attempts.
4	Account Token	This entity serves as a repository for managing the authentication and authorization process for user accounts. It stores the essential credentials used to verify user identity and grant access to specific resources, along with information about the validity period of these credentials

5	Organization Manager	This entity serves as a central repository for storing essential details about managers within an organization. It captures attributes such as their personal information, contact details, and verification status
6	Member	This entity serves as a central repository for managing member data, capturing personal details, contact information, social media links, and account verification status
7	Organization	This entity serves as a central repository for managing and tracking data related to organizations within a system or application. It encompasses a wide range of information, including the organization's profile, contact details, financial information, legal documentation, and operational status
8	Transaction	This entity serves as a record-keeping mechanism for tracking various details about financial transactions, including their type, amount, payer information, and status. It also appears to have connections to campaigns and potentially QR code images associated with the transactions
9	Account	This entity serves as a record-keeping mechanism for storing essential details about user accounts, including their login credentials, profile information, and status within the system
10	Create Organization Manager Request	This entity serves as a record-keeping mechanism for tracking the lifecycle of requests to add new managers to organizations. It stores essential details about each request, including information about the organization, the proposed manager, and the approval status
11	Banking Account	This entity serves as a record-keeping mechanism for tracking essential details about bank accounts, including account holder information, bank details, and the availability status of the account
12	Campaign	This entity serves as a central repository for managing and tracking data related to campaigns within a system or application. It encompasses a wide range of information, from basic details to operational and transparency aspects
13	Campaign Type	This entity serves as a reference table, providing a list of valid campaign types that users can select from when creating a new campaign
14	Create Organization Request	This entity serves as a record-keeping mechanism for tracking the lifecycle of requests to establish new organizations. It stores essential details about each request, including information about the proposed organization, the requester, and the approval status
15	Activity Image	This entity serves as a repository for managing images that are related to specific activities. It stores details such as the image's unique identifier, the activity it belongs to, the image's storage location (link), and timestamps for creation and updates
16	Admin	This entity serves as a record-keeping mechanism for storing essential details about admin users, including their unique identifier, associated account, contact information, and name
17	Notification	This entity serves as a record-keeping mechanism for tracking notifications delivered to users. It captures essential details about each notification, including its unique identifier, category, content, creation date, recipient account, and whether it has been viewed

18	Create Volunteer Request	This entity serves as a record-keeping mechanism for tracking the lifecycle of membership requests. It stores essential details about each request, including information about the proposed volunteer, their club affiliation, and the approval status
19	Processing Phase	This entity serves as a record-keeping mechanism for tracking the progress of a process, divided into distinct phases. Each phase has a name, start and end dates, and flags to indicate whether it's currently in progress or completed
20	Activity	This entity serves as a record-keeping mechanism for tracking the details of activities performed during different stages of a process. It stores information such as the activity's title, content, creation date, and whether it's active
21	Moderator	This entity serves as a record-keeping mechanism for tracking essential details about moderator, including their unique identifier, associated account, contact information, and status within the system
22	Post	This entity serves as a record-keeping mechanism for tracking individual posts, capturing essential details such as the post's title, content, associated images, and timestamps for creation and updates
23	Create Post Request	This entity serves as a record-keeping mechanism for managing the process of creating new posts. It stores essential details about each request, including the post content (once it's created), who initiated the request, who approved or rejected it and timestamps for various stages of the process
24	Statement Phase	This entity serves as a record-keeping mechanism for tracking the progress of a statement process, divided into distinct phases. Each phase has a name, start and end dates, and flags to indicate whether it's currently in progress or completed
25	Create Activity Request	This entity serves as a record-keeping mechanism for tracking the lifecycle of requests to add new activities
26	Statement File	This entity serves as a repository for managing files that are linked to specific statement phases. It stores details such as the file's unique identifier, the statement phase it belongs to, the file's storage location or link, and timestamps for creation and updates
27	Donate Phase	This entity serves as a record-keeping mechanism for managing the timeline and financial aspects of donation phases within a campaign. It allows for the segmentation of a campaign into distinct periods, each with its own fundraising targets and progress tracking
28	Processing Phase Statement File	This entity serves as a structured record to capture essential information about a specific phase within a larger process, facilitating the management and tracking of that process
29	Activity Statement File	This entity serves as a container for supplementary information related to activities, aiding in the organization and management of tasks within a system

Table 17 - Entities Description

3.2 Common Functions

3.2.1 Browsing

- Function trigger: Users click link of website VMO.

- Function description: This feature allows user to view list of campaign, campaign details without login.
- Screen layout:

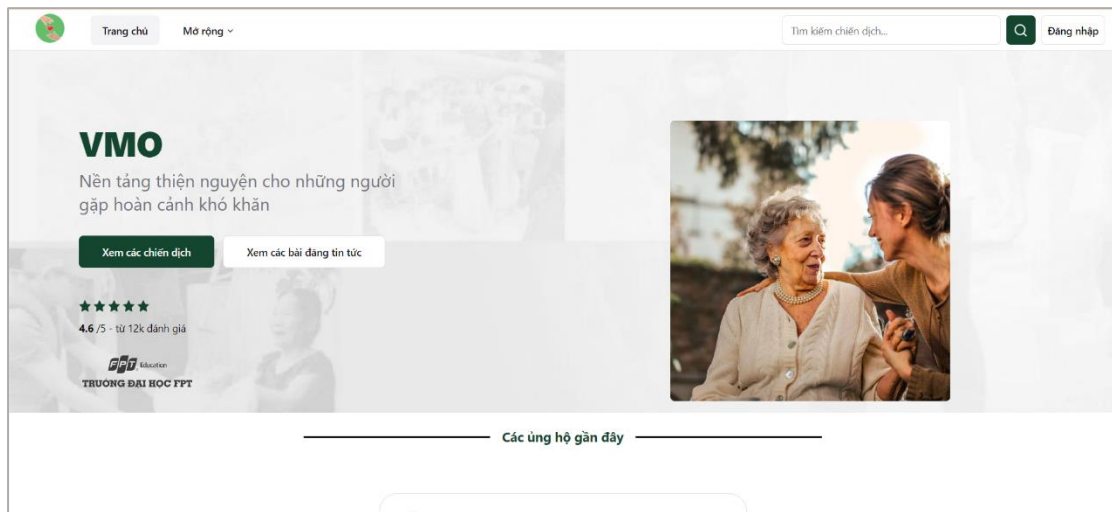

Figure 12 - Landing page

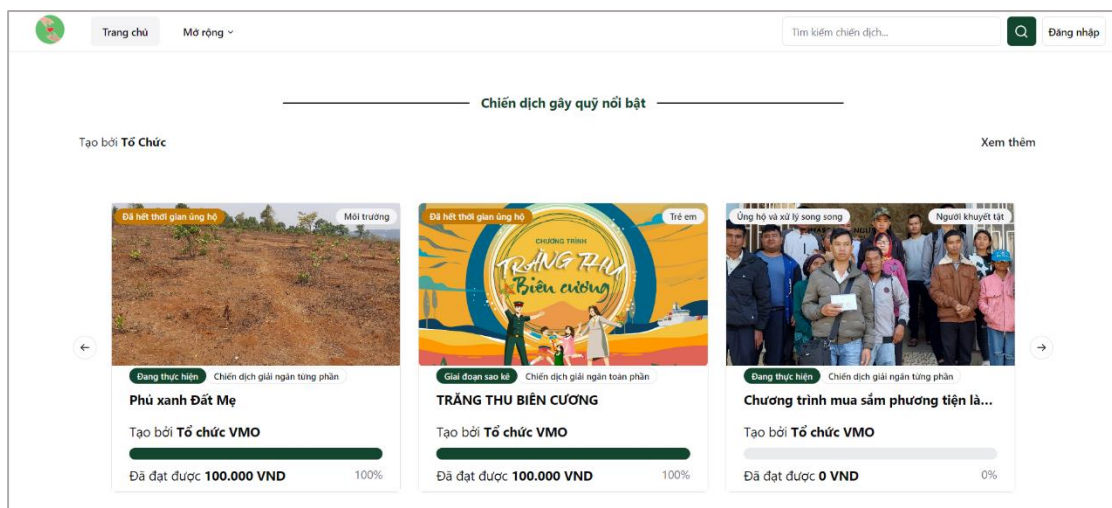

Figure 13 - Campaign of organization

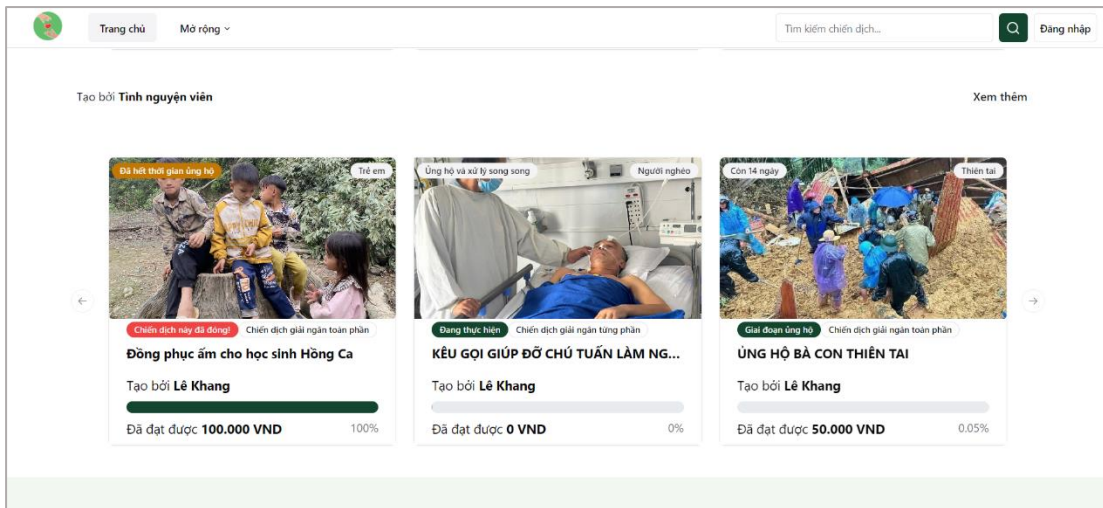

Figure 14 - Campaign of volunteer

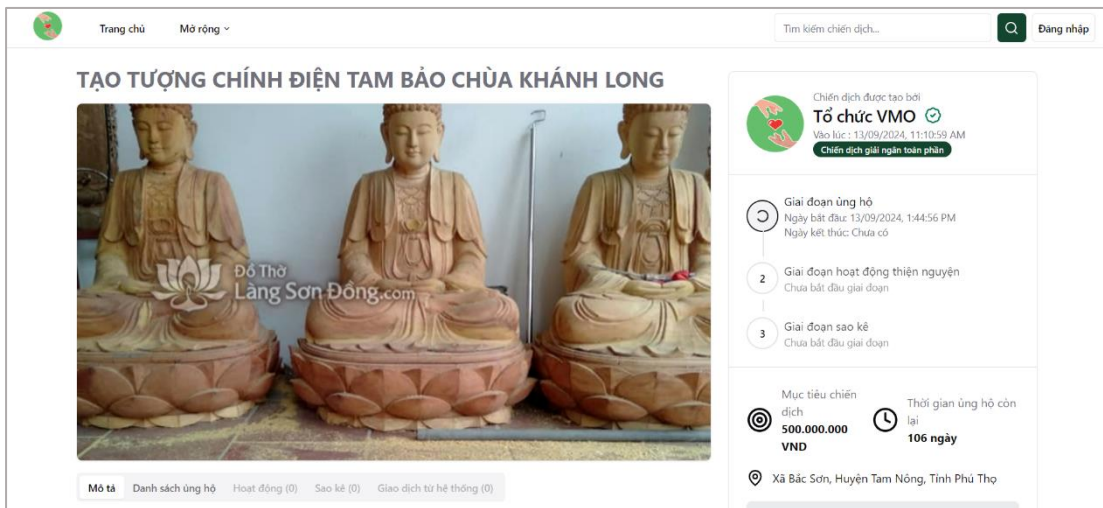

Figure 15 - Full disbursement campaign page

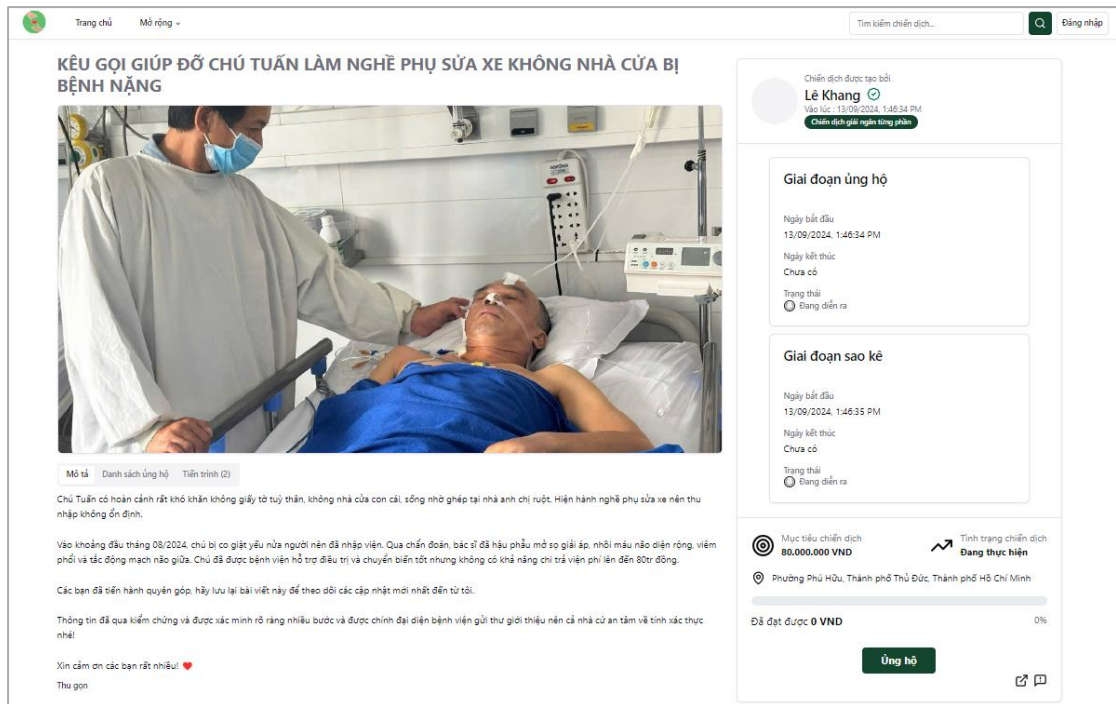

Figure 16 - Partial disbursement campaign page

- Function Details:
 - Pre-condition: N/A.
 - Post-condition:
 - Success: System return list of campaign of volunteer and organization.
 - Fail: System shows error message.
 - Business rule: N/A.

3.2.2 Searching

- Function trigger: Users input name of campaign in search bar and click search.
- Function description: This feature allow user to search campaign by using a search bar.
- Screen layout:

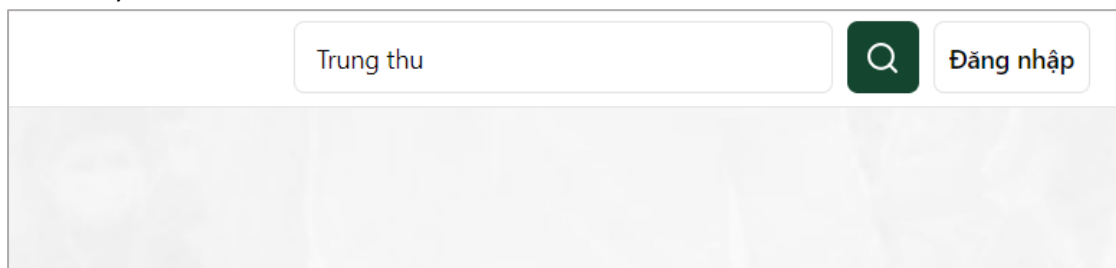

Figure 17 - Searching

- Function Details:
 - Pre-condition: N/A.
 - Post-condition:
 - Success: System returns a list of campaigns that match the name with the keyword on the search bar's input field.
 - Fail: System shows error message.
 - Business rule: N/A.

3.2.3 Login

- Function trigger: Users click “Đăng nhập” button.
- Function description: This feature allows user to log in to the system.
- Screen layout:

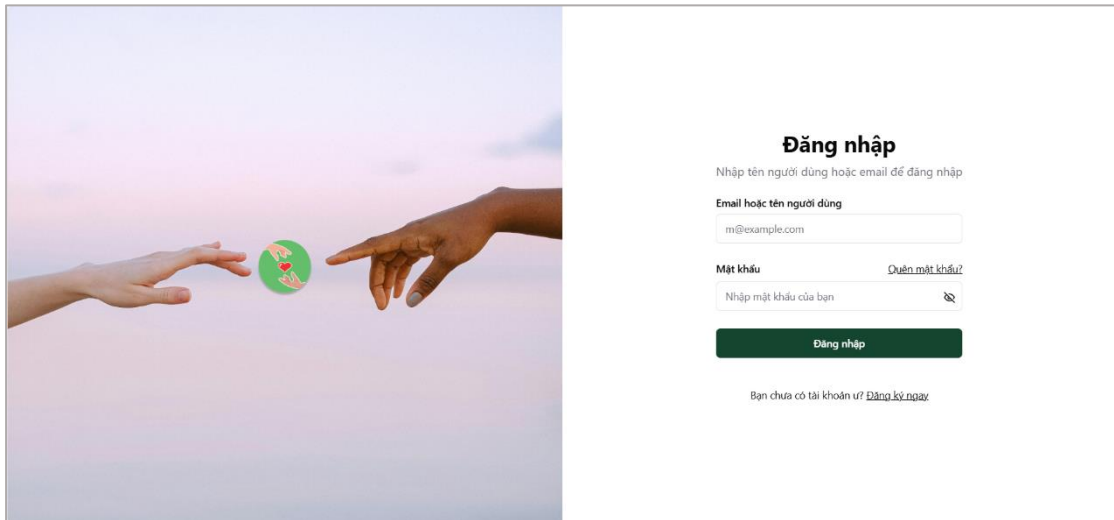

The image shows a login page layout. On the left is a vertical banner image featuring Michelangelo's 'The Creation of Adam' with a green circular icon in the center containing two hands holding a heart. On the right is the login form. It has a title 'Đăng nhập' (Login) in bold. Below it is a subtitle 'Nhập tên người dùng hoặc email để đăng nhập' (Enter username or email to login). There are two input fields: 'Email hoặc tên người dùng' (Username or email) with the placeholder 'm@example.com', and 'Mật khẩu' (Password) with a placeholder 'Nhập mật khẩu của bạn' and a 'Quên mật khẩu?' (Forgot password?) link. A dark green 'Đăng nhập' button is at the bottom. Below the button is a link: 'Bạn chưa có tài khoản ư? Đăng ký ngay.' (Don't you have an account? Register now.).

Figure 18 - Login page

- Function Details:
 - Pre-condition: User has not logged in.
 - Post-condition: User is redirected to the home page.
 - Business rule: N/A.

3.2.4 Forgot Password

- Function trigger: Users click “Quên mật khẩu?” link.
- Function description: This feature allows user to reset their forgot password.
- Screen layout:

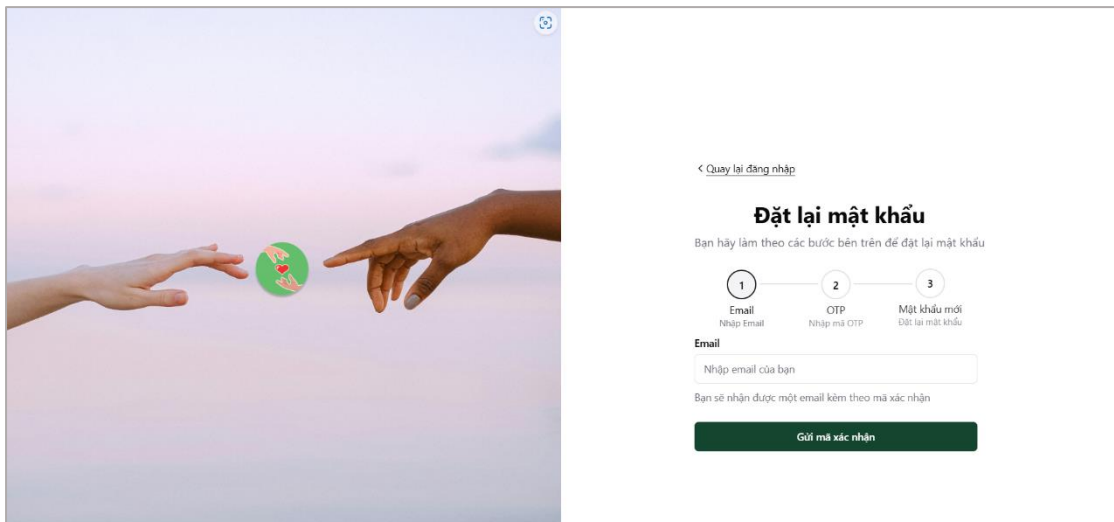

The image shows the first step of the forgot password process. On the left is the same banner image as in Figure 18. On the right is the form. It has a back link '< Quay lại đăng nhập' (Back to login). The title is 'Đặt lại mật khẩu' (Reset password) in bold. Below it is a subtitle 'Bạn hãy làm theo các bước bên trên để đặt lại mật khẩu' (Please follow the steps above to reset your password). There is a progress indicator with three steps: 1. Email (Nhập Email), 2. OTP (Nhập mã OTP), and 3. Mật khẩu mới (Đặt lại mật khẩu). Step 1 is currently active. Below the progress indicator is an 'Email' label and an input field with the placeholder 'Nhập email của bạn'. Below the input field is a note: 'Bạn sẽ nhận được một email kèm theo mã xác nhận' (You will receive an email with a confirmation code). At the bottom is a dark green button labeled 'Gửi mã xác nhận' (Send confirmation code).

- Function Details:
 - Pre-condition: User's email has been registered into the system.
 - Post-condition: User is redirected to home page.
 - Business rule: N/A.

3.2.5 Logout

- Function trigger: Users click "Đăng xuất"
- Function description: This feature allows user to logout of the system.
- Screen layout:

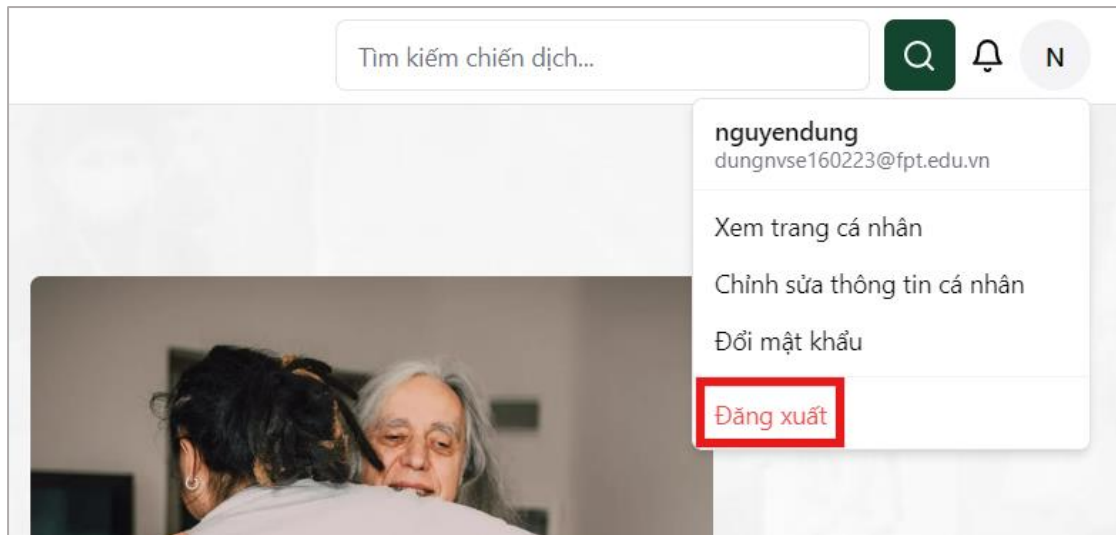

Figure 22 - Logout

- Function Details:
 - Pre-condition: User has logged in successfully.
 - Post-condition: User has logged out successfully and redirected to home page.
 - Business rule: N/A.

3.2.6 Reset Password

- Function trigger: Users click “Đổi mật khẩu”.
- Function description: This feature allows user to change their password.
- Screen layout:

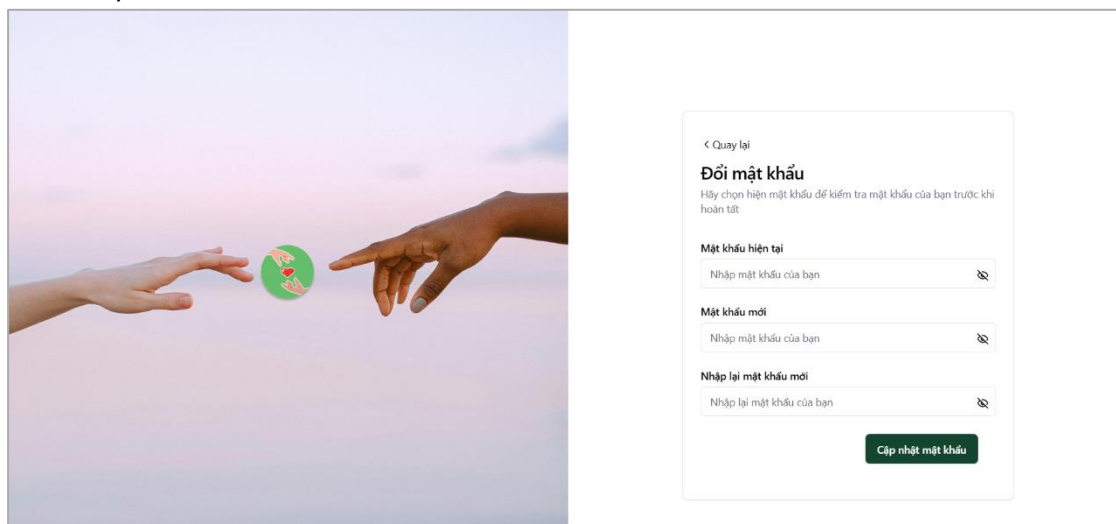

Figure 23 - Reset password page

- Function Details:
 - Pre-condition: User's email has been registered into the system.
 - Post-condition: User is redirected to home page.
 - Business rule: BR-05.

3.2.7 View Notification

- Function trigger: Users click notification icon.

- Function description: This feature allows user to view the notification.
- Screen layout:

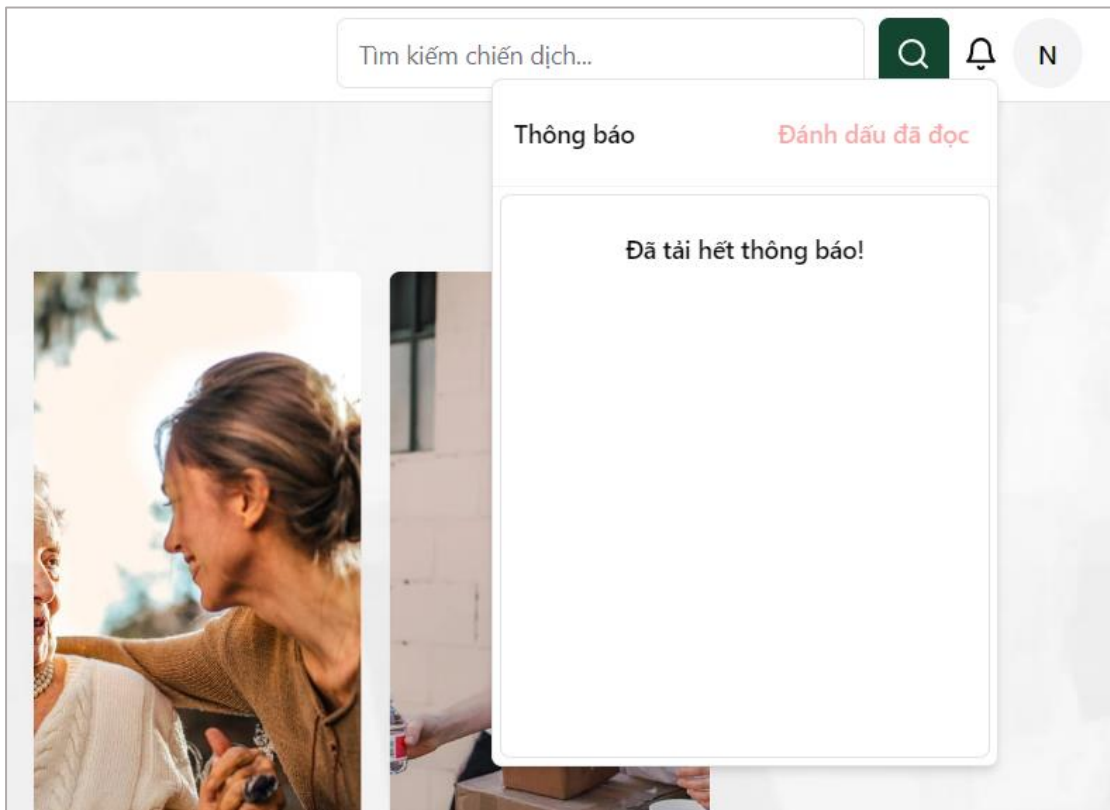

Figure 24 - Notification

- Function Details:
 - Pre-condition: User has logged in.
 - Post-condition: A list of notifications shows on home page by drop-down list.
 - Business rule: N/A.

3.2.8 Donate Money

- Function trigger: Users click “Ủng hộ” button.
- Function description: This feature allows user to donate money to a campaign.
- Screen layout:

Figure 25 - Donate money page

- Function Details:
 - Pre-condition:
 - User logged in with Member role, Volunteer role, Organization Manager role.
 - Campaign must be active, not expired.
 - Post-condition:
 - Success: System navigate to campaign detail page.
 - Fail: System shows error message.
 - Business rule: BR-03, BR-04, BR-08, BR-18, BR-22.

3.2.9 Share Campaign

- Function trigger: Users click share campaign icon.
- Function description: This feature allows user to share a campaign.
- Screen layout:

- Business rule: N/A.

3.5.3.3 Volunteer Update Campaign

- Function trigger: Volunteer click “Chỉnh sửa chiến dịch”.
- Function description: This feature allows volunteer to update campaign information.
- Screen layout:

The screenshot shows a web interface for editing a campaign. The top navigation bar includes 'Trang chủ', 'Mô hình', and 'Quản lý chiến dịch'. The main content area is split into two panels. The left panel, titled 'Ảnh chiến dịch', features an image upload area with a text prompt 'Nhập vào đây hoặc kéo thả file ảnh PNG, JPG' and a button 'Chọn ảnh chiến dịch của bạn'. Below this is a section for the campaign manager's account, showing a profile icon 'K', the name 'Tài khoản người dùng: lekhang', and fields for 'Tên ngân hàng' (Ngân hàng TMCP Phát triển Thành phố Hồ Chí Minh), 'Tên tài khoản' (LE NGUYEN HOANG KHANG), 'Số tài khoản' (138704070008451), and 'QR code tài khoản (ảnh)'. The right panel, titled 'Chỉnh sửa chiến dịch', contains several form fields: 'Tên chiến dịch' (DÃ CƯỜNG CHẠM DỨT NƠ LÂM ĐƯỜNG VÀO CHÙA VẠN PHƯỚC; CẢ MAU), 'Địa chỉ' (Chùa Vạn Phước, Xã Rach Chao, Huyện Phú Tân, Tỉnh Cà Mau), 'Mô tả' (a detailed paragraph about the campaign), 'Thời gian cho giải đoạn ứng hỗ trợ' (a green button), 'Diễn ra từ' (ngày 13 tháng 09 năm 2024) and 'đến ngày' (ngày 30 tháng 09 năm 2024), 'Mục tiêu chiến dịch' (5000000 VND), 'Loại chiến dịch' (Khác), and 'Giấy tờ xác thực cấp phép thiện nguyện của địa phương (ảnh)'. A green 'Gửi' button is located at the bottom right of the right panel.

Figure 40 - Volunteer update full disbursement campaign page

The screenshot shows a web interface for editing a campaign. The left sidebar contains options for 'Ảnh chiến dịch' (Campaign Image) and 'Tài khoản người dùng' (User Account). The main area is titled 'Chỉnh sửa chiến dịch' (Edit Campaign) and includes form fields for:

- Tên chiến dịch (Campaign Name): Nhập Sáng Đêm Rằm
- Địa chỉ (Address): Đắk Nông
- Mô tả (Description): Tiếp nối chương trình "Cùng Em Đến Trường" của qua Đ. Bảo Lâm, hành trình tiếp theo mình và các bạn (dùng vậy, chính là các bạn đó) sẽ đến chính là Đắk Nông, những buổi lang cách xa các thị trấn, thành thị, hầu như là tách biệt với các tiện nghi vật chất mà chúng mình đang tiếp xúc, những mái đồng đến sáng nhất chính là ánh sáng, những thanh âm nhàn nhạp chính là tiếng gọi, những tên cây, đàn ve với đó là những tiếng cười của đàn trẻ nhỏ mà đưa với lòng yêu, buồn khổ, khát khao hạnh phúc, khát khao được đến trường...
- Thời gian (Duration): From ngày 15 tháng 09 năm 2024 to ngày 20 tháng 09 năm 2024
- Mục tiêu chiến dịch (Campaign Goal): 70000000 VND
- Loại chiến dịch (Campaign Type): Khác
- Kế hoạch chiến dịch (Campaign Plan): A table with 2 items:

STT	Mô tả	Số tiền	Loại
1	Nấu Ăn Cho Em	25.000.000 VND	Xóa
2	Cùng Em Đến Trường	25.000.000 VND	Xóa

 At the bottom, there is a 'Lưu' (Save) button.

 - Business rule: N/A.

4. Non-Functional Requirements

4.1 External Interfaces

- User Interface:
 - GUI must be simple, friendly.
 - Icons used must be easy to recognize.
 - Language used in the application is Vietnamese.
 - UI can be responsive on multiple screens, allowing the main content to display without scrolling horizontal appearance.
 - Background and font colours have great contrast.
- Hardware interface: Connected to Wifi, 4GB of RAM minimum, CPU 1.4GHz.
- Software Interface: Browser Google Chrome (version 96 or higher) and Firefox (version 60 or higher), Internet Explorer (version 10 or higher) or with any web browser that supports HTML5 & CSS3.
- Communication Protocols: Use HTTP protocol 1.1 for communication between the web browser and the web server.

4.2 Quality Attributes

4.2.1 Usability

- All text, label and message should be uniformly written in Vietnamese.
- Web UI/UX follows Material Design to be convenient and easy for use.
- It takes less than an hour to train our user to use the VMO System.
- Users are not required to have technical knowledge before using.

4.2.2 Reliability

- The likelihood of the system failure is less than 10%.

- The availability of the system is over 80%.

4.2.3 Performance

- Response time is equal to or less than 03 seconds for each request.
- Processing time is 03 – 05 seconds for each page.

4.2.4 Dependability

- Security:
 - JWT is used for authentication and authorization.
 - Each role can only access its own functions.
 - All data must be validated before saving to the database.
- Safety: The internet connection must always be stable during the use of the system, especially in money-related features.

4.2.5 Supportability

- The system is modularized to support maintenance and further development.

4.2.6 Design Constraints

- Language used for Web Application and Mobile Application is Vietnamese.
- Using technologies:
 - Web Application: ReactJS.
 - Server: Azure, Firebase.
 - Database management system: SQL Server.

4.2.7 Support documentation

- User Guides are provided for guiding to assist users using the VMO System, written in step-by-step, with Visual content, including images, annotated screenshots, graphics.
- Documenting the requirement specification, system design, and testing to support maintenance and further development.

5. Requirement Appendix

5.1 Business Rules

ID	Rule Definition
BR-01	Any donation-related features must comply with the law.
BR-02	The platform must be clear about its privacy policy and terms of use.
BR-03	All donation transactions must be made through the platform's web application.
BR-04	All money raised for one campaign cannot be used for any other campaign as long as that campaign continues as normal.
BR-05	Passwords must have a minimum of eight characters, at least one letter and one number, and will be HMACSHA512 hashed before being sent to the server.
BR-06	User information must be clear, polite, transparent and accurate about themselves and must not be a virtual account.
BR-07	Every campaign organization is created by a volunteer or organization manager.
BR-08	The platform will keep all campaign funds until the end and hand over the funds to the organization manager/volunteer to make a transaction statement.
BR-09	Each document must be unique and protected from being always stolen for the sake of privacy.
BR-10	Users participating in the application must be 16 years of age or older.
BR-11	The password will not be displayed directly on the profile page.

BR-12	When users click confirm, they are responsible for their decision.
BR-13	All organizations cannot have the same name. Campaigns belonging to different organizations are allowed to have the same name.
BR-14	Every organization and campaign on the platform must be censored by the system administrator to be displayed.
BR-15	Types of organizations and campaigns include non-profit organizations, non-governmental organizations, social organizations, business organizations, donor organizations...
BR-16	Every operating organization must have a legal entity.
BR-17	If an organization or campaign is removed from the platform, all information will no longer appear on the platform.
BR-18	The campaign on the platform only accepts monetary donations.
BR-19	The donation phase start time must be at least 1 day from the date of sending the request to create a campaign.
BR-20	All ongoing campaigns must belong to active organizations.
BR-21	Every donation campaign must have donation materials that are used after the campaign ends.
BR-22	Donation campaigns that have been removed from the platform can no longer accept donations. The donation amount will be donated for another campaign.
BR-23	Tasks can only be assigned to engineers with participating work roles, which do not include viewer roles.
BR-24	User's phone numbers and email information must be unique and not duplicate.
BR-25	Donate duration and working duration must be within the duration of campaign.
BR-26	Within a maximum of 1 month from the end of the donation campaign, the organization manager/volunteer must submit complete documents proving the campaign's income and expenditure.
BR-27	A campaign should last a maximum of 1 year.
BR-28	This is a non-profit charity platform and does not charge any administration or user fees. 100% of donations received for campaigns will be used for calling purposes.
BR-29	The platform operates based on the principle of promoting transparency of charitable activities in Vietnam, through a public monitoring mechanism from the community.
BR-30	The following goals will not be called for fundraising in the Charity application: Calling for capital or shares, not related to practical activities, beneficial to society, going against operating principles and ethical standards ethics and social standards; Related to political and religious activities; The content of the goal is illegal and not consistent with the goals and mission of the Charity Fund.
BR-31	Accounts and characters must not be named after celebrities, leaders, terrorists, fascists, criminals and names of individuals and organizations opposing the State of the Socialist Republic of Vietnam. The Socialist Republic of Vietnam endangers national security, social order, safety and the Fund's operating principles.
BR-32	The name or account characters must not be identical or like the extent of confusion with the abbreviation or full name of a state agency, political organization, socio-political organization, or socio-political organization. professional associations, social organizations, socio-professional organizations of Vietnam and international organizations, without the permission of such agencies or organizations.
BR-33	Do not use identical or confusing names or account characters to impersonate another individual or organization for the purpose of providing false information, distorting, slandering, or insulting the organization's reputation or honor. and the dignity of others.
BR-34	Do not name accounts or characters that violate intellectual property rights.

BR-35	Do not use images that incite violence, lewdness, debauchery, crime, social evils, superstition, or sabotage the nation's fine customs and traditions.
BR-36	Do not use images or images that offend famous people, national heroes, leaders of the Party and State of Vietnam and leaders of international organizations.
BR-37	Do not use images that have duplicate or confusing signs such as symbols, flags, badges, abbreviations, full names of state agencies, political organizations, socio-political organizations, or organizations. Socio-political-professional organizations, social organizations, socio-professional organizations of Vietnam and international organizations insult the reputation of these organizations.
BR-38	Do not use images related to religion to incite or divide the great national unity and go against Vietnam's religious policy.
BR-39	Do not use images of crime, terrorism, fascism and photos and images showing individuals and organizations opposing the State of the Socialist Republic of Vietnam, causing harm to national security and order. social self-safety.
BR-40	Do not use images that offend the reputation of the organization, honor or dignity of other individuals.
BR-41	Do not use images that violate intellectual property rights.
BR-42	There is only one detailed cash flow document for each donation campaign.
BR-43	Once a campaign has started, information cannot be edited.

Table 18 - Business Rules

5.2 Common Requirements

- User Authentication: The system must provide a secure way for users to login and authenticate their identities.
- User Interface: Providing an intuitive and user-friendly interface that allows users to interact with the system.
- Data Security: Protecting sensitive data from unauthorized access, ensuring data privacy and compliance with relevant regulations.
- User Role and Permissions: Defining user roles and permissions for different levels of access and functionality.

5.3 Application Messages List

#	Message code	Message Type	Context	Content
1	MSG01	Toast message	Error	Có lỗi xảy ra!
2	MSG02	In red, under the text box	Input-required fields are empty	Không được để trống!
3	MSG03	In red, under the text box	Input the money in donate over 500.000.000 VND	Số tiền phải nhỏ hơn 500.000.000 VND!
4	MSG04	Toast message	Input incorrect username or password	Đăng nhập thất bại!
5	MSG05	In red, under the text box	Input incorrect email format	Email không hợp lệ

6	MSG06	Toast message	Input incorrect OTP code	Mã xác nhận không chính xác!
7	MSG07	Toast message	Change password successfully	Đã đổi mật khẩu thành công!
8	MSG08	Toast message	Password does not match	Mật khẩu không trùng khớp!
9	MSG09	Toast message	Logout successfully	Đăng xuất thành công
10	MSG10	Toast message	Reset password successfully	Thay đổi mật khẩu thành công!
11	MSG11	Toast message	Current password does not match	Mật khẩu hiện tại sai!
12	MSG12	Toast message	Register successfully	Đăng ký thành công
13	MSG13	In red, under the text box	Input incorrect phone number format	Số điện thoại không hợp lệ
14	MSG14	Toast message	Register with existed email	Email đã tồn tại
15	MSG15	In red, under the text box	Input incorrect birth date format	Ngày tháng năm sinh không thể lớn hơn hoặc bằng ngày hiện tại!
16	MSG16	In red, under the text box	Input birth date under 18 years old	Người dùng phải từ 18 tuổi trở lên!
17	MSG17	In red, under the text box	Input incorrect username format	Tên đăng nhập phải bao gồm chuỗi và số từ 3 đến 16 ký tự chỉ được thêm ký tự '-' hoặc '_', không được để dấu, chữ cái viết hoa. Ví dụ: abc_123
18	MSG18	In red, under the text box	Register with existed username	Tên đăng nhập đã tồn tại
19	MSG19	In red, under the text box	Input incorrect password format	Mật khẩu phải bao gồm cả chữ hoa, chữ thường, số, ký tự đặc biệt và ít nhất 8 ký tự. Ví dụ: Abc@1234

20	MSG20	Toast message	Update successfully	Cập nhật thành công!
21	MSG21	In red, under the text box	Input incorrect link format	Đường dẫn không hợp lệ. Vui lòng nhập lại link Facebook của bạn
22	MSG22	In red, under the text box		Đường dẫn không hợp lệ. Vui lòng nhập lại link Youtube của bạn
23	MSG23	In red, under the text box		Đường dẫn không hợp lệ. Vui lòng nhập lại link Tiktok của bạn
24	MSG24	Toast message	History transaction list upload successfully	Đã tải hết các giao dịch được thanh toán!
25	MSG25	Toast message	Create campaign successfully	Tạo chiến dịch thành công
26	MSG26	In red, under the text box	Input incorrect date time	Ngày kết thúc phải lớn hơn ngày bắt đầu!
27	MSG27	In red, under the text box		Ngày không được nằm trong quá khứ!
28	MSG28	In red, under the text box		Ngày kết thúc phải diễn ra trong tương lai!
29	MSG29	Toast message	Create activity successfully	Tạo hoạt động thành công
30	MSG30	Toast message	Create activity successfully	Tạo tin tức thành công
31	MSG31	Toast message	Create organization successfully	Tạo tổ chức thành công
32	MSG32	Toast message	Create organization fail	Tạo tổ chức thất bại

IV. Software Design Description

1. System Design

1.1 System Architecture

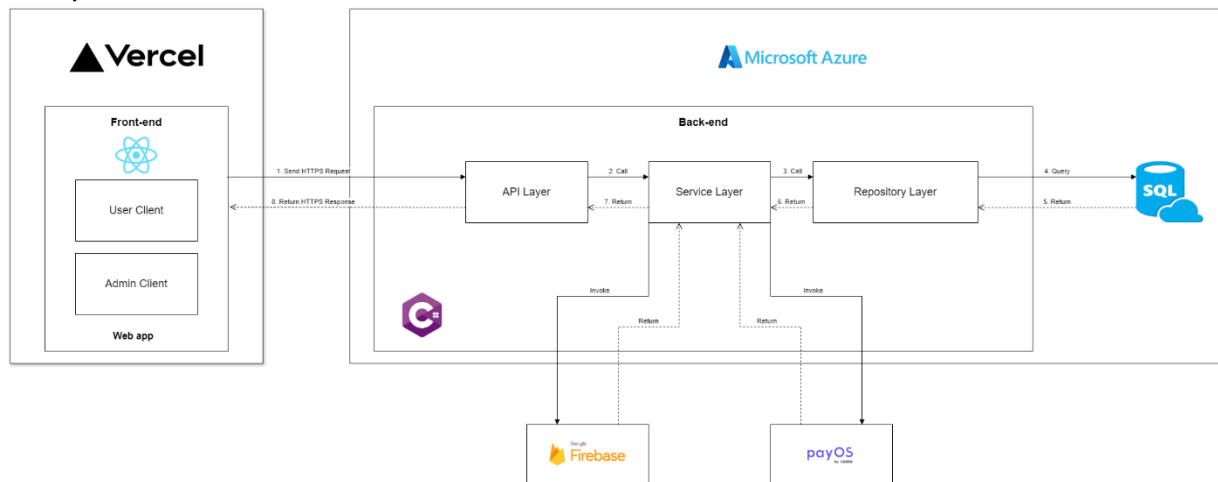

Figure 118 - System Architecture

1.2 Package Diagram

1.2.1 Back-end Package Diagram

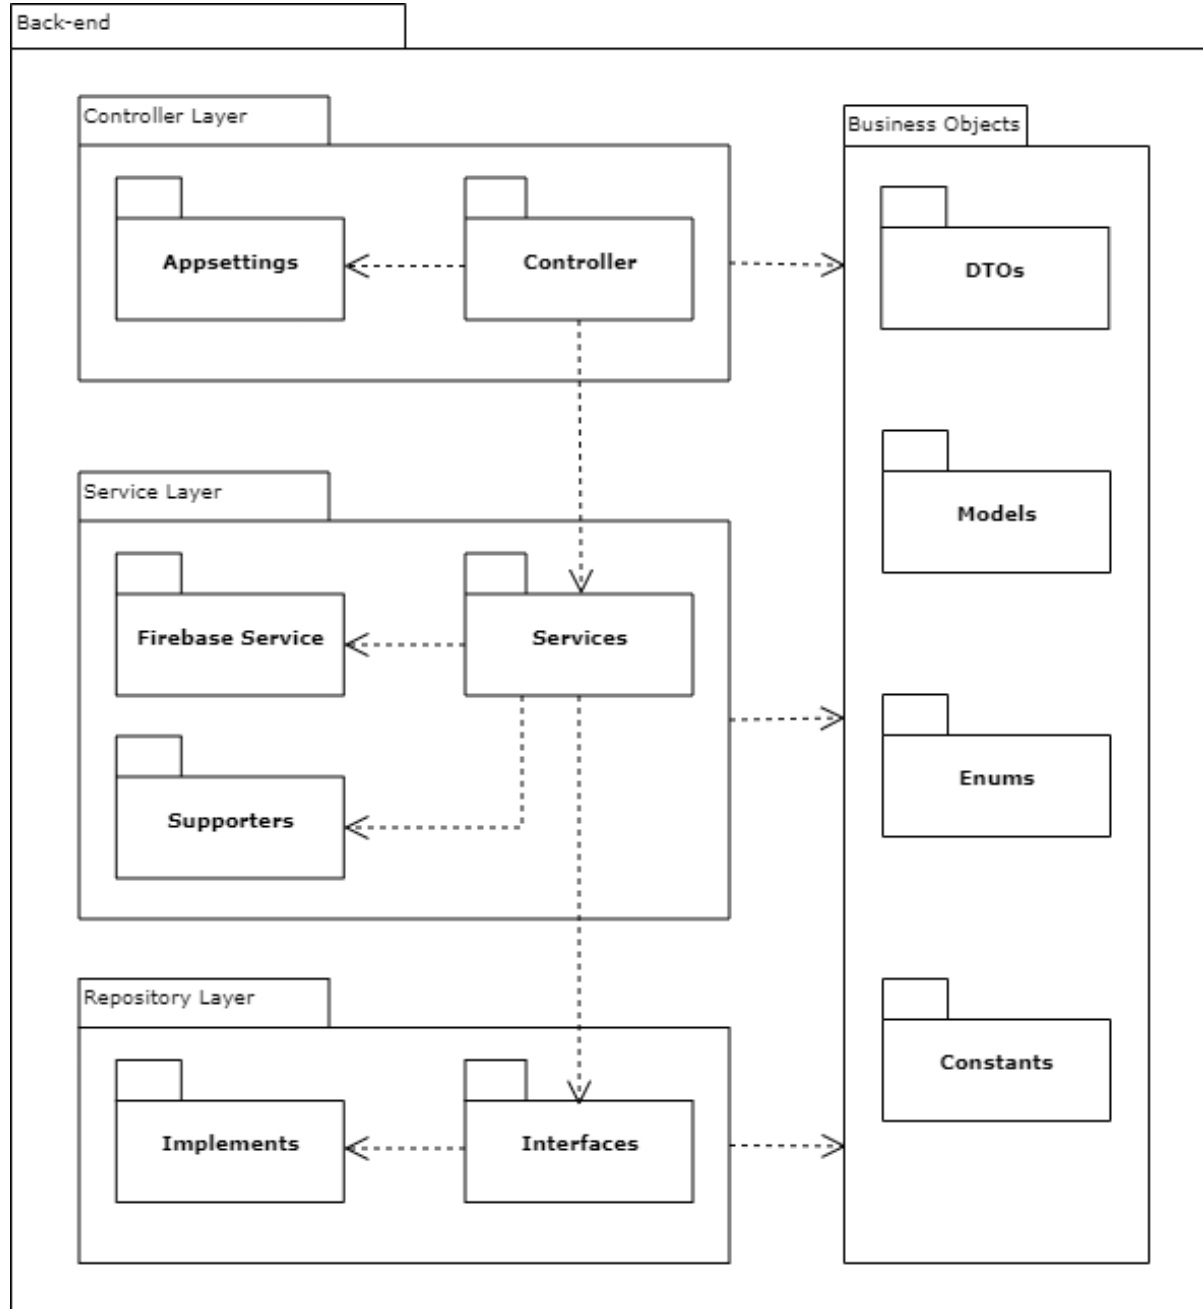

Figure 119 - Back-end Package Diagram

Package Descriptions

No	Package	Description
1	Appsettings	Configuration file in .NET applications. This file is used to store configuration settings for the application
2	Controllers	Controllers that define the endpoints for the API, responsible for handling incoming requests, processing user input

3	Services	Represent components that call the Repository classes and compute complex business rules
4	Firebase Service	Components specifically designed to interact with Firebase, including cloud storage provided by the Firebase platform
5	Supporters	Classes that provide supporting functionality to the services of an application
6	Interfaces	Interfaces for the Repository classes
7	Implements	Implementation of the Interfaces for Repository classes
8	Models	Contains the Entity models and the Context class
9	DTOs	Contains the Data transfer objects (DTO) assisting the API request and response functions
10	Enums	Define a finite set of options or states for entities attribute

1.2.2 Front-end Package Diagram

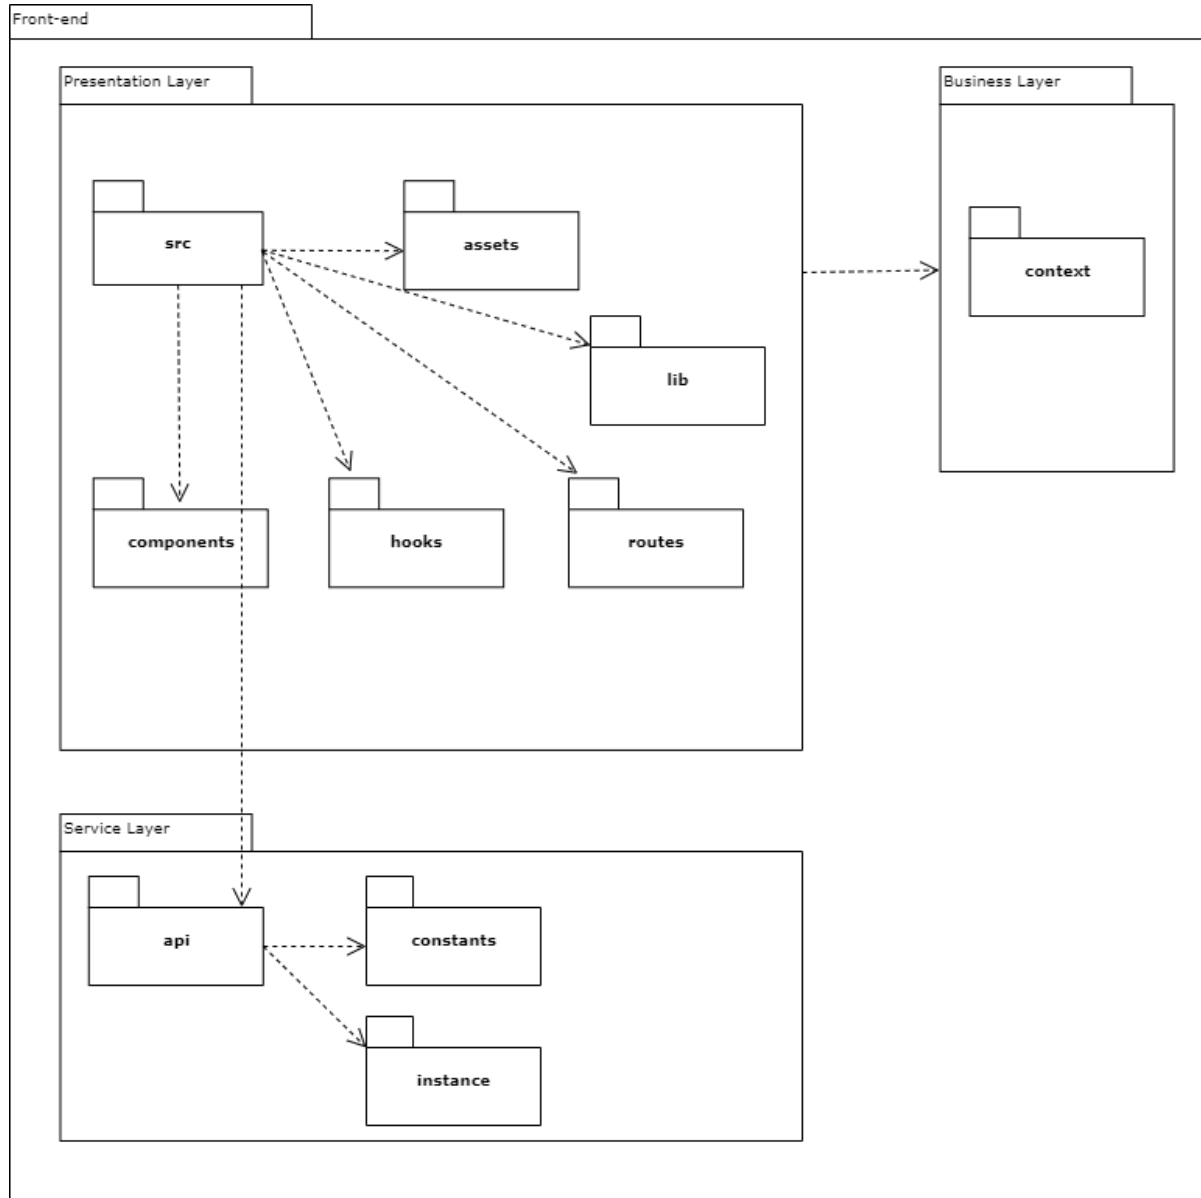

Figure 120 - Front-end Package Diagram

Package Descriptions

No	Package	Description
1	src	The root directory contains all the application code. It serves as the entry point for the project structure and houses all the layers and components
2	routes	Contains configuration files for application routes. It manages the navigation and access control within the app, determining which components are displayed based on the user's permissions and the current URL

3	hooks	This folder contains utility hooks used across the application. Hooks are reusable logic that can be shared among different components to manage state, effects, and other functionalities
4	components	This directory contains the individual components that make up the user interface. Each component corresponds to a specific part of the UI and is responsible for rendering content and handling user interactions. Components are typically organized based on the pages they are associated with
5	lib	The library folder holds utility functions and modules that assist in styling components. It might include CSS-in-JS solutions, custom themes, or other styling utilities that are applied across the components
6	assets	This directory contains static resources such as images, logos, fonts, and other media files used within the application. These assets are referenced by components to enhance the visual presentation of the app
7	constants	This sub-folder stores constant values related to the API, such as base URLs, endpoints, or other configuration data required for making API requests
8	instance	Contains the configuration settings for how API requests are made. This could include setting up Axios or another HTTP client with interceptors, base URLs, and headers. This instance is used throughout the app to make consistent and configurable API calls
9	context	Contains the Context API implementations that wrap around the application to control and manage global state. The context provides a way to share state across various components without needing to pass props down manually at every level

Table Descriptions

No	Table	Description
01	IPAddress	- Primary keys: IPAddressId uniqueidentifier NOT NULL - Foreign keys: AccountId uniqueidentifier - LoginTime datetime2(7) - IPAddressValue nvarchar(MAX) - CreateDate datetime2(7)
02	AccountToken	- Primary keys: AccountTokenId uniqueidentifier NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - AccessToken nvarchar(MAX) NOT NULL - ExpiredDateAccessToken datetime2(7) - CodeRefreshToken nvarchar(MAX) - RefreshToken nvarchar(MAX) NOT NULL - ExpiredDateRefreshToken datetime2(7)

		- CreatedDate datetime2(7) NOT NULL
03	OrganizationManager	- Primary keys: OrganizationManagerID uniqueidentifier NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - PhoneNumber nvarchar(MAX) NOT NULL - FirstName nvarchar(MAX) NOT NULL - LastName nvarchar(MAX) NOT NULL - Gender nvarchar(MAX) NOT NULL - BirthDay datetime2(7) NOT NULL - FacebookUrl nvarchar(MAX) - YoutubeUrl nvarchar(MAX) - TiktokUrl nvarchar(MAX) - IsVerified bit NOT NULL
04	CreateCampaignRequest	- Primary keys: CreateCampaignRequestID uniqueidentifier NOT NULL - Foreign keys: CampaignID uniqueidentifier NOT NULL - CreateByUser uniqueidentifier - CreateByOM uniqueidentifier - ApprovedBy uniqueidentifier - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - ApprovedDate datetime2(7) - IsApproved bit NOT NULL - IsRejected bit NOT NULL - IsPending bit NOT NULL - IsLocked bit NOT NULL - ModifiedBy uniqueidentifier
05	Achievement	- Primary keys: AchievementID uniqueidentifier NOT NULL - Foreign keys: OrganizationID uniqueidentifier NOT NULL - Title nvarchar(MAX) NOT NULL - Description nvarchar(MAX) NOT NULL - Link nvarchar(MAX) NOT NULL - CreatedDate datetime2(7) NOT NULL
06	Transaction	- Primary keys: TransactionID uniqueidentifier NOT NULL - Foreign keys: CampaignID uniqueidentifier NOT NULL - Foreign keys: OrderID int NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - Foreign keys: BankingAccountID uniqueidentifier - Foreign keys: ProcessingPhaseID uniqueidentifier - TransactionType int NOT NULL - Amount real NOT NULL - Note nvarchar(MAX) NOT NULL - PayerName nvarchar(MAX) NOT NULL - IsIncognito bit NOT NULL - CreateDate datetime2(7) NOT NULL - TransactionStatus int NOT NULL - TransactionImageUrl nvarchar(MAX) NOT NULL
07	CreateOrganizationManagerRequest	- Primary keys: CreateOrganizationManagerRequestID uniqueidentifier NOT NULL - Foreign keys: OrganizationManagerID uniqueidentifier NOT NULL

		- Name nvarchar(MAX) - Email nvarchar(MAX) NOT NULL - PhoneNumber nvarchar(MAX) NOT NULL - Address nvarchar(MAX) - CitizenIdentification nvarchar(MAX) - PersonalTaxCode nvarchar(MAX) - CreatedBy uniqueidentifier NOT NULL - ApprovedBy uniqueidentifier - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - ApprovedDate datetime2(7) - IsAcceptTermOfUse bit NOT NULL - IsApproved bit NOT NULL - IsDisable bit NOT NULL - IsRejected bit NOT NULL - IsPending bit NOT NULL - IsLocked bit NOT NULL - ModifiedBy uniqueidentifier
08	Account	- Primary keys: AccountID uniqueidentifier NOT NULL - Foreign keys: N/A - HashPassword varbinary(MAX) NOT NULL - SaltPassword varbinary(MAX) NOT NULL - Email nvarchar(100) NOT NULL - Username nvarchar(450) - Avatar nvarchar(MAX) - Role int NOT NULL - CreatedAt datetime2(7) NOT NULL - UpdatedAt datetime2(7) - IsActive bit NOT NULL - IsBlocked bit NOT NULL - ModifiedBy uniqueidentifier
09	Member	- Primary keys: MemberID uniqueidentifier NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - PhoneNumber nvarchar(MAX) - FirstName nvarchar(MAX) NOT NULL - LastName nvarchar(MAX) NOT NULL - Gender nvarchar(MAX) - BirthDay datetime2(7) - FacebookUrl nvarchar(MAX) - YoutubeUrl nvarchar(MAX) - TiktokUrl nvarchar(MAX) - IsVerified bit NOT NULL
10	Organization	- Primary keys: OrganizationID uniqueidentifier NOT NULL - Foreign keys: OrganizationManagerID uniqueidentifier NOT NULL - Name nvarchar(MAX) NOT NULL - Logo nvarchar(MAX) NOT NULL - Description nvarchar(MAX) - Website nvarchar(MAX) - Tax nvarchar(MAX) - Location nvarchar(MAX)

		- FoundingDate datetime2(7) NOT NULL - OperatingLicense nvarchar(MAX) - CreatedAt datetime2(7) NOT NULL - UpdatedAt datetime2(7) - IsActive bit NOT NULL - IsModify bit NOT NULL - IsDisable bit NOT NULL - Category nvarchar(MAX) - Note nvarchar(MAX)
11	CreateOrganizationRequest	- Primary keys: CreateOrganizationRequestID uniqueidentifier NOT NULL - Foreign keys: OrganizationID uniqueidentifier NOT NULL - OrganizationName nvarchar(MAX) - OrganizationManagerEmail nvarchar(MAX) - OrganizationTaxCode nvarchar(MAX) - FoundingDate datetime2(7) - SocialMediaLink nvarchar(MAX) - AreaOfActivity nvarchar(MAX) - Address nvarchar(MAX) - PlanInformation nvarchar(MAX) - AchievementLink nvarchar(MAX) - CreateBy uniqueidentifier NOT NULL - ApprovedBy uniqueidentifier - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - ApprovedDate bit - IsApproved bit NOT NULL - IsReject bit NOT NULL - IsPending bit NOT NULL - IsLocked bit NOT NULL - AuthorizationDocuments nvarchar(MAX) - ModifiedBy uniqueidentifier
12	ActivityImage	- Primary keys: ActivityImageId uniqueidentifier NOT NULL - Foreign keys: ActivityId uniqueidentifier NOT NULL - Link nvarchar(MAX) NOT NULL - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - IsActive bit NOT NULL
13	Admin	- Primary keys: AdminID uniqueidentifier NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - PhoneNumber nvarchar(MAX) NOT NULL - FirstName nvarchar(MAX) NOT NULL - LastName nvarchar(MAX) NOT NULL
14	BankingAccount	- Primary keys: BankingAccountID uniqueidentifier NOT NULL - Foreign keys: OrganizationManagerID uniqueidentifier - Foreign keys: MemberID uniqueidentifier - Foreign keys: AccountID uniqueidentifier NOT NULL - BankingName nvarchar(MAX) NOT NULL - AccountNumber nvarchar(MAX) NOT NULL - AccountName nvarchar(MAX) NOT NULL - QRCode nvarchar(MAX) NOT NULL

		- CreatedAt datetime2(7) NOT NULL - UpdatedAt datetime2(7) - IsAvailable bit NOT NULL
15	Campaign	- Primary keys: CampaignID uniqueidentifier NOT NULL - Foreign keys: OrganizationID uniqueidentifier - Foreign keys: CampaignTypeID uniqueidentifier NOT NULL - Foreign keys: BankingAccountID uniqueidentifier NOT NULL - Address nvarchar(MAX) NOT NULL - Name nvarchar(MAX) NOT NULL - Description nvarchar(MAX) NOT NULL - Image nvarchar(MAX) NOT NULL - StartDate datetime2(7) NOT NULL - ExpectedEndDate datetime2(7) NOT NULL - ActualEndDate datetime2(7) - TargetAmount nvarchar(MAX) NOT NULL - ApplicationConfirmForm nvarchar(MAX) NOT NULL - IsTransparent bit NOT NULL - CreatedAt datetime2(7) NOT NULL - UpdatedAt datetime2(7) - IsActive bit NOT NULL - IsModify bit NOT NULL - IsComplete bit NOT NULL - IsDisable bit NOT NULL - CanBeDonated bit NOT NULL - CheckTransparentDate datetime2(7) - Note nvarchar(MAX) - CampaignTier int NOT NULL
16	CampaignType	- Primary keys: CampaignTypeID uniqueidentifier NOT NULL - Name nvarchar(MAX) NOT NULL - CreatedAt datetime2(7) NOT NULL - IsValid bit NOT NULL
17	ProcessingPhase	- Primary keys: ProcessingPhaseId uniqueidentifier NOT NULL - Foreign keys: CampaignId uniqueidentifier NOT NULL - Name nvarchar(MAX) NOT NULL - StartDate datetime2(7) - EndDate datetime2(7) - IsEnd bit NOT NULL - UpdateDate datetime2(7) - CreateDate datetime2(7) NOT NULL - IsProcessing bit NOT NULL - UpdateBy uniqueidentifier - IsLocked bit NOT NULL - CurrentMoney nvarchar(MAX) - IsActive bit NOT NULL - [Percent] float - Priority int NOT NULL - CurrentPercent float
18	Moderator	- Primary keys: ModeratorID uniqueidentifier NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - PhoneNumber nvarchar(MAX) NOT NULL - FirstName nvarchar(MAX) NOT NULL

		- LastName nvarchar(MAX) NOT NULL
19	Activity	- Primary keys: ActivityId uniqueidentifier NOT NULL - Foreign keys: ProcessingPhaseId uniqueidentifier NOT NULL - Title nvarchar(MAX) NOT NULL - Content nvarchar(MAX) NOT NULL - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - IsActive bit NOT NULL
20	CreateActivityRequest	- Primary keys: CreateActivityRequestID uniqueidentifier NOT NULL - Foreign keys: ActivityID uniqueidentifier NOT NULL - CreateByOM uniqueidentifier - CreateByUser uniqueidentifier - ApprovedBy uniqueidentifier - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - ApprovedDate datetime2(7) - IsApproved bit NOT NULL - IsRejected bit NOT NULL - IsPending bit NOT NULL - IsLocked bit NOT NULL - ModifiedBy uniqueidentifier
21	Notification	- Primary keys: NotificationID uniqueidentifier NOT NULL - Foreign keys: AccountID uniqueidentifier NOT NULL - NotificationCategory int NOT NULL - Content nvarchar(MAX) NOT NULL - CreateDate datetime2(7) NOT NULL - IsSeen bit NOT NULL
22	CreateVolunteerRequest	- Primary keys: CreateVolunteerRequestID uniqueidentifier NOT NULL - Foreign keys: MemberID uniqueidentifier NOT NULL - MemberName nvarchar(MAX) NOT NULL - Birthday datetime2(7) NOT NULL - PhoneNumber nvarchar(MAX) NOT NULL - Email nvarchar(MAX) NOT NULL - SocialMediaLink nvarchar(MAX) - MemberAddress nvarchar(MAX) NOT NULL - RoleInClub int - ClubName nvarchar(MAX) - DetailDescriptionLink nvarchar(MAX) - AchievementLink nvarchar(MAX) - CreatedBy uniqueidentifier NOT NULL - ApprovedBy uniqueidentifier - CreateDate datetime2(7) NOT NULL - ApprovedDate datetime2(7) - UpdateDate datetime2(7) - ModifiedBy uniqueidentifier - IsAcceptTermOfUse bit NOT NULL - IsDisable bit NOT NULL - IsApproved bit NOT NULL - IsRejected bit NOT NULL

		- IsPending bit NOT NULL - IsLocked bit NOT NULL
23	CreatePostRequest	- Primary keys: CreatePostRequestID uniqueidentifier NOT NULL - Foreign keys: PostID uniqueidentifier NOT NULL - CreateByUser uniqueidentifier - CreateByOM uniqueidentifier - ApprovedBy uniqueidentifier - ApprovedDate datetime2(7) - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - IsApproved bit NOT NULL - IsRejected bit NOT NULL - IsPending bit NOT NULL - IsLocked bit NOT NULL - ModifiedBy uniqueidentifier
24	Post	- Primary keys: PostID uniqueidentifier NOT NULL - Foreign keys: N/A - Cover nvarchar(MAX) NOT NULL - Title nvarchar(MAX) NOT NULL - Content nvarchar(MAX) NOT NULL - Image nvarchar(MAX) NOT NULL - Description nvarchar(MAX) - CreateAt datetime2(7) NOT NULL - UpdateAt datetime2(7)
25	DonatePhase	- Primary keys: DonatePhaseId uniqueidentifier NOT NULL - Foreign keys: CampaignId uniqueidentifier NOT NULL - Name nvarchar(MAX) NOT NULL - StartDate datetime2(7) - EndDate datetime2(7) - CurrentMoney nvarchar(MAX) NOT NULL - [Percent] float NOT NULL - CreateDate datetime2(7) NOT NULL - UpdateBy uniqueidentifier - IsLocked bit NOT NULL - IsProcessing bit NOT NULL - IsEnd bit NOT NULL - UpdateDate datetime2(7)
26	StatementPhase	- Primary keys: StatementPhaseId uniqueidentifier NOT NULL - Foreign keys: CampaignId uniqueidentifier NOT NULL - Name nvarchar(MAX) NOT NULL - StartDate datetime2(7) - EndDate datetime2(7) - IsEnd bit NOT NULL - UpdateBy uniqueidentifier - IsLocked bit NOT NULL - UpdateDate datetime2(7) - CreateDate datetime2(7) NOT NULL - IsProcessing bit NOT NULL
27	StatementFile	- Primary keys: StatementFileId uniqueidentifier NOT NULL - Foreign keys: StatementPhaseId uniqueidentifier NOT NULL

		- Link nvarchar(MAX) NOT NULL - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - CreateBy uniqueidentifier NOT NULL
28	ProcessingPhaseStatement File	- Primary keys: ProcessingPhaseStatementFileId uniqueidentifier NOT NULL - Foreign keys: ProcessingPhaseId uniqueidentifier NOT NULL - Link nvarchar(MAX) NOT NULL - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - CreateBy uniqueidentifier NOT NULL
29	ActivityStatementFile	- Primary keys: ActivityStatementFileId uniqueidentifier NOT NULL - Foreign keys: ActivityId uniqueidentifier NOT NULL - Description nvarchar(MAX) NOT NULL - Link nvarchar(MAX) NOT NULL - CreateDate datetime2(7) NOT NULL - UpdateDate datetime2(7) - IsActive bit NOT NULL

V. Software Testing Documentation

1. Scope of Testing

Feature	Function	Role	Description
Common	Browsing	Guest, Member, Volunteer, Organization Manager	Users to view detail of campaign, organization, news without login
	Searching		User to search campaign by using a search bar
	Login		User to log in to the system
	Forgot Password		User to reset their password
	Logout		User to logout of the system
	Reset Password		User to change their password
	View Notification		User to view the notifications
	Donate Money		User to donate money to a campaign
	Share Campaign		User to share a campaign
Register	Register	Guest	Guest to register an account
Manage Profile	View Profile	Member, Volunteer, Organization Manager	User to view their profile
	Update Profile		User to edit their profile
View Donation History	View Donation History		User to view their donation history
Manage Campaigns	Create Campaign	Volunteer, Organization Manager	User to create a new campaign
	View Campaign		User to view a new campaign
	Update Campaign		User to update status of campaign
	Delete Campaign		User to delete a campaign
Manage Activities	Create Activity		User to create a new activity
	View Activity		User to view a new activity
	Update Activity		User to update an activity
	Delete Activity		User to delete a activity
Manage Organization	Create Organization	Organization Manager	User to create a new organization
	View Organization		User to view a new organization
	Update Organization		User to update an organization
	Delete Organization		User to delete an organization
Manage News	Create News		User to create a new news
	View News		User to view a new news
	Update News		User to update news
	Delete News		User to delete news
Manage Donation Document	View Donation Document		User to view all the Donation document's details

	Upload Donation Document	Volunteer, Organization Manager	User to upload document files
Administrate Member	View Member	Admin	Admin to get detailed information about the user
	Enable Member		Admin to enable a user, allowing this user to login to the VMO system
	Disable Member		Admin to disable a user, preventing this user to login to the VMO system
Administrate Volunteer	View Volunteer		Admin to get detailed information about the member
	Enable Volunteer		Admin to enable a member, allowing this member to login to the VMO system
	Disable Volunteer		Admin to disable a member, preventing this member to login to the VMO system
Administrate Organization Manager	View Organization Manager		Admin to get detailed information about the organization manager
	Enable Organization Manager		Admin to enable an organization manager, allowing this organization manager to login to the VMO system
	Disable Organization Manager		Admin to disable a organization manager, preventing this organization manager to login to the VMO system
Administrate Moderator	View Moderator		Admin to get detailed information about the Moderator
	Enable Moderator		Admin to enable a Moderator, allowing this Moderator to login to the VMO system
	Disable Moderator		Admin to disable a Moderator, preventing this Moderator to login to the VMO system
Upload Statement Document	Upload Statement Document		Admin to upload the statement document
View Transaction	View Transaction		Admin to view all the transaction between users and admin
View Statement Document	View Statement Document		Admin to view the statement document's details

Administrate Organizations	View Organization Request	Moderator	Moderator to view the organization request
	Approve Organization Request		Moderator to approve the request create organization
	Reject Organization Request		Moderator to reject the request create organization
Administrate Campaigns	View Campaign Request		Moderator to view the campaign request
	Approve Campaign Request		Moderator to approve the request create campaign
	Reject Campaign Request		Moderator to reject the request create campaign
	Enable Campaign Transparent		Moderator to enable the campaign transparent status
	Disable Campaign Transparent		Moderator to disable the campaign transparent status
Administrate News	View News Request		Moderator to view the news request
	Approve News Request		Moderator to approve the request create news
	Reject News Request		Moderator to reject the request create news
Administrate Activities	View Activity Request		Moderator to view the activity request
	Approve Activity Request		Moderator to approve the request create activity
	Reject Activity Request		Moderator to reject the request create activity
Administrate Volunteer Request	View Volunteer Request		Moderator to view the volunteer's request
	Approve Volunteer Request		Moderator to approve the request create volunteer's account
	Reject Volunteer Request		Moderator to reject the request create volunteer's account
Administrate Organization Manager Request	View Organization Manager Request		Moderator to view the organization manager's request
	Approve Organization Manager Request		Moderator to approve the request create organization manager's account
	Reject Organization Manager Request		Moderator to reject the request create organization manager's account

Table 23 - Scope of Testing

2. Test Strategy

2.1 Testing Types

Objective	Technique	Completion criteria
Testing the verification and validation of the units of code	Unit testing	Method, class, etc
Testing application environment in real situations	End-to-end testing	Database, third-party, payment, etc
Testing the group of integration modules	Integration testing	Modules
Testing the communication between components or systems by data and control	Interface testing	Requests, response, etc

Table 24 - Testing Types

2.2 Test Levels

Type of Tests	Test Level			
	Unit	Integration	System	Acceptance
Unit testing	X			
Interface testing	X	X		
Integration testing		X		
End-to-end testing				X

Table 25 - Test Levels

2.3 Supporting Tools

Purpose	Tool	Vendor/In-house	Version
API testing	Postman/Swagger	Postman/Swagger	11.1.14

Table 26 - Supporting Tools

3. Test Plan

3.1 Human Resources

Worker/Doer	Role	Specific Responsibilities/Comments
Châu Nhật Trường	Leader	- Preparing test plans and verifying the progress of tests - Verified the progress of API testing - Do test cases as planned
Trương Đình Đăng Khoa	Member	Do test cases as planned
Nguyễn Văn Dũng	Member	
Nguyễn Tiến Phát	Member	

Table 27 - Human Resources

3.2 Test Environment

Purpose	Tool	Provider	Version
Testing API tool	Windows	Microsoft	11

Table 28 - Test Environment

3.3 Test Milestones

Milestone Task	Start Date	End Date
Unit test	07/01/2024	08/12/2024
Other Test Case (IT, ST, AT)	07/01/2024	08/12/2024

Table 29 - Test Milestones

VI. Release Package & User Guides

1. Deliverable Package

No.	Deliverable Item	Description
1	Project Schedule/Tracking	We use Trello to track our progress, Google Drive to store schedules, notes and documents: • Trello • Google Drive
2	Source Codes	We have 2 repositories for web application. • Link GitHub for Front-end: su24_vmo_fe • Link GitHub for Back-end: su24_vmo_be
3	Database Script(s)	The database script: database_script
4	Final Report Document	This is the final report document
5	Test Cases Document	VMO test report in submission folder
6	Slide	VMO slide in submission folder

Table 30 - Deliverable Package

2. Installation Guides

2.1 System Requirements

2.1.1 Hardware requirements

	Minimum	Recommended
Internet connection	LAN Cable, Wi-Fi (4 Mbps)	LAN Cable, Wi-Fi (8 Mbps)
Processor	1.8GHz	Multi-core
Memory	4GB	8GB or higher
Storage	128GB	256GB or higher

Table 31 - Hardware requirements

2.1.2 Software requirements

	Name/Version	Description
Operating System	Windows 10 or higher	OS for PC
Browser	Latest version	Browser for web application
.NET SDK	.NET 6 SDK	.NET Standard Development Kit
.NET IDE	Visual Studio 2022	IDE for building and deploying API project
Visual Studio Code	Latest version	Code editor for Front-end
NodeJS	Latest version	Runtime environment for Front-end

Table 32 - Software requirements

2.2 Installation Instruction

2.2.1 Front-end

- Step 1: Download & Install Visual Studio Code from <https://code.visualstudio.com/download>

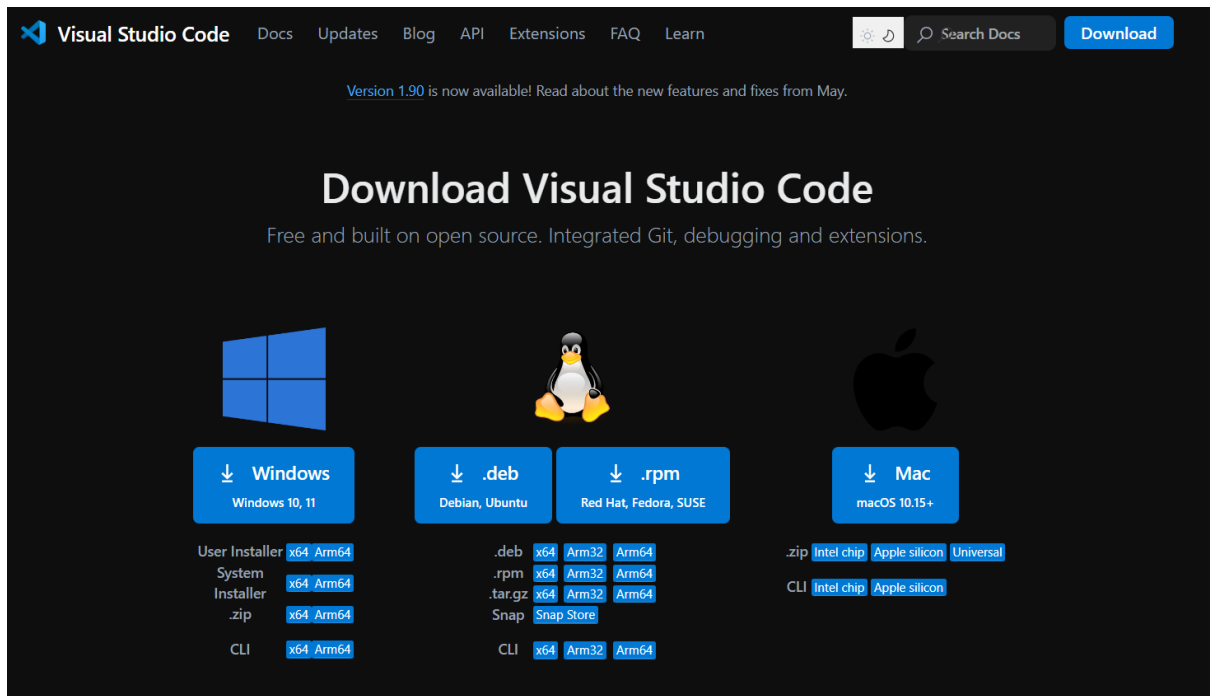

Figure 147 - Download Visual Studio Code screen

- Step 2: Download & Install NodeJS LTS from <https://nodejs.org/en>

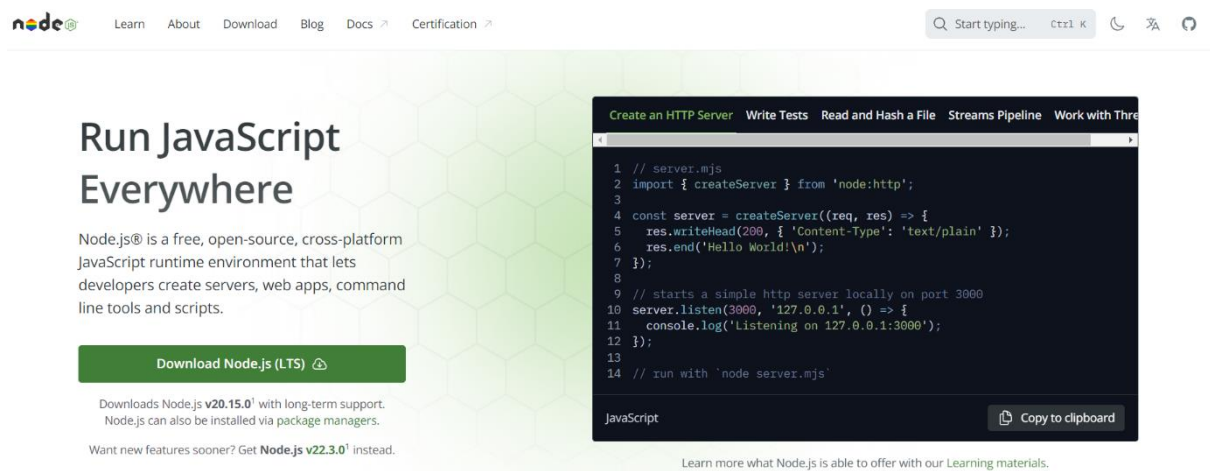

Figure 148 - Download NodeJS screen

- Step 3: Download and install git <https://git-scm.com/downloads>

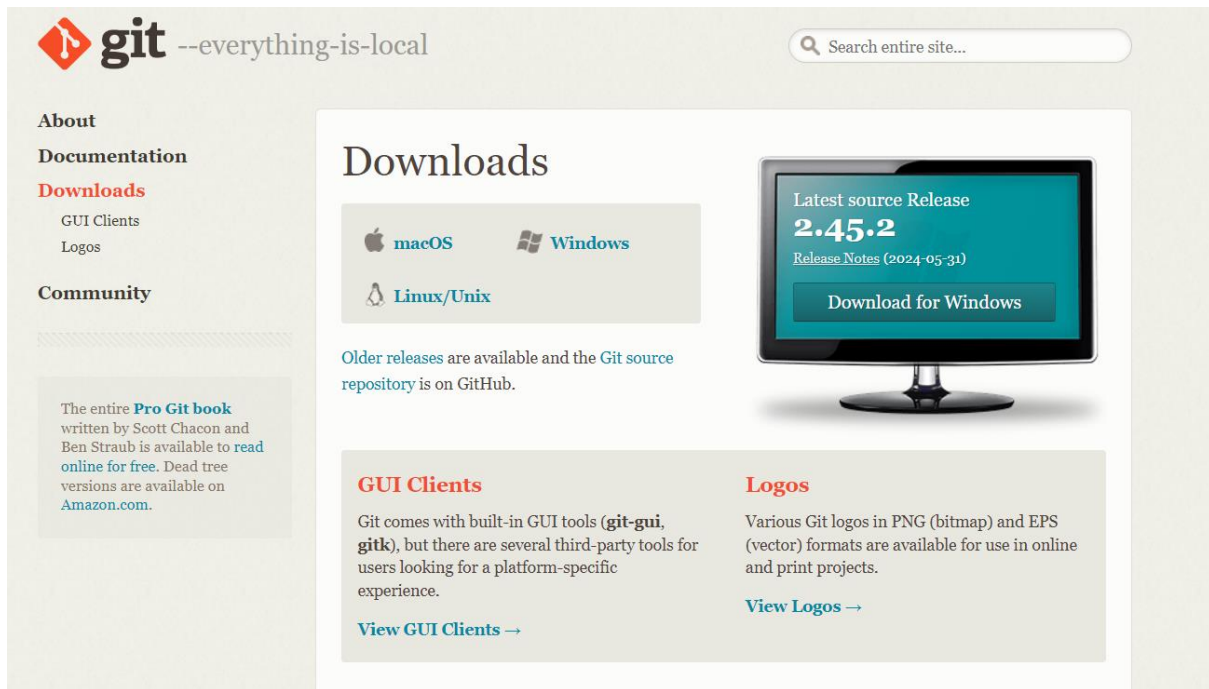

Figure 149 - Download Git screen

- Step 4: Navigate to the folder you want to install the project in, open CMD by right-clicking > “Open in Terminal” and type the commands below to get the source code

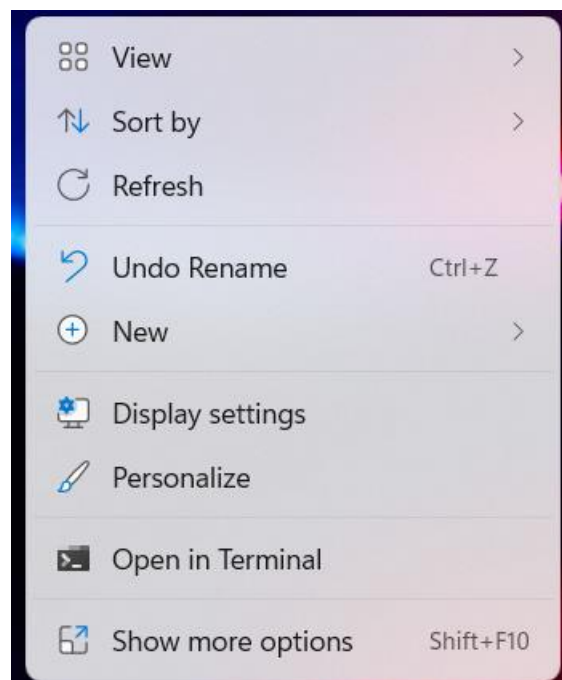

Figure 150 - Open in Terminal for Git commands

- git clone https://github.com/SU24VMO/su24_vmo_fe.git
- Step 5: Check for npm version by typing into the CMD
 - npm --version
- Step 6: Open Visual Studio Code and Open the folder **su24_vmo_fe**

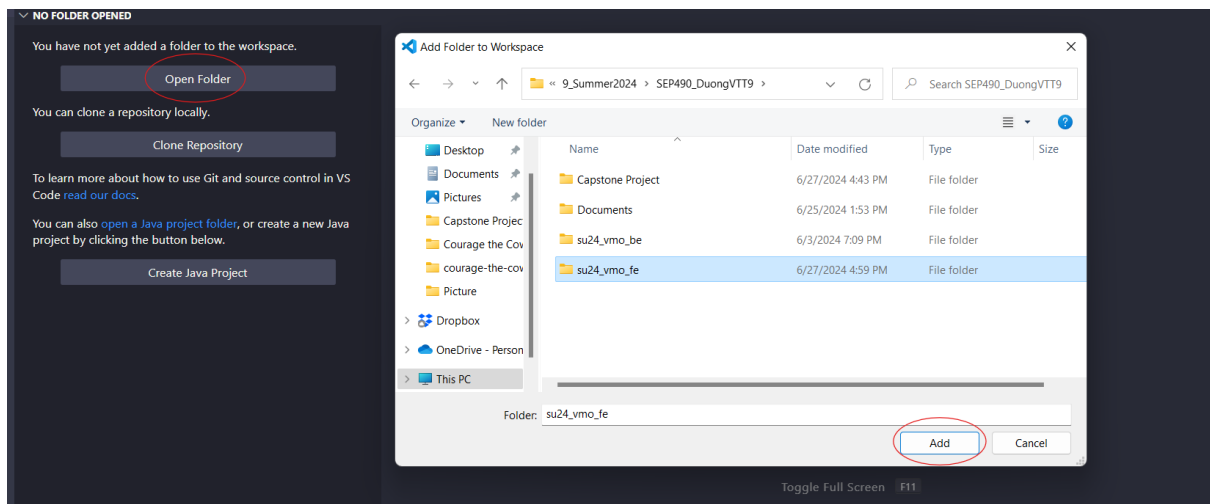

Figure 151 - Open project folder

- Step 7: Open a new terminal in Visual Studio Code

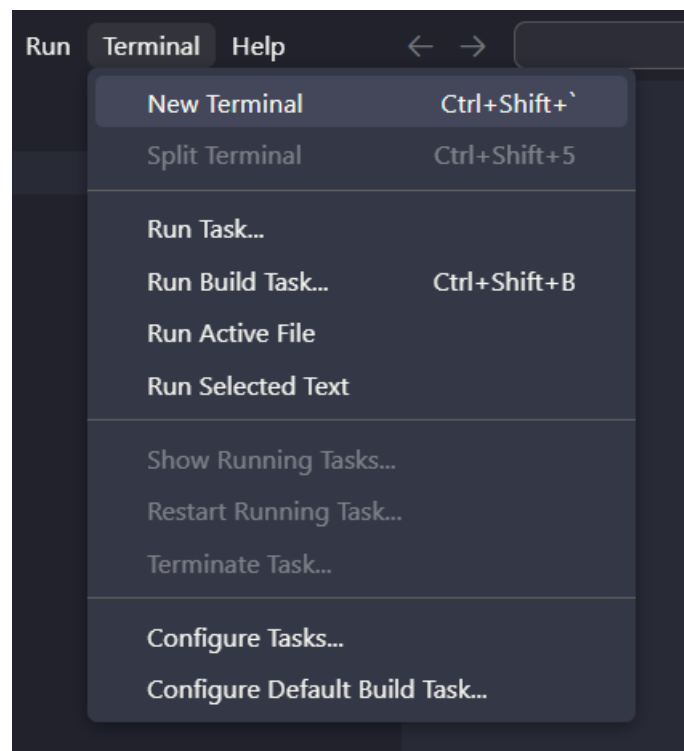

Figure 152 - New Terminal

- Step 8: Run command: npm i

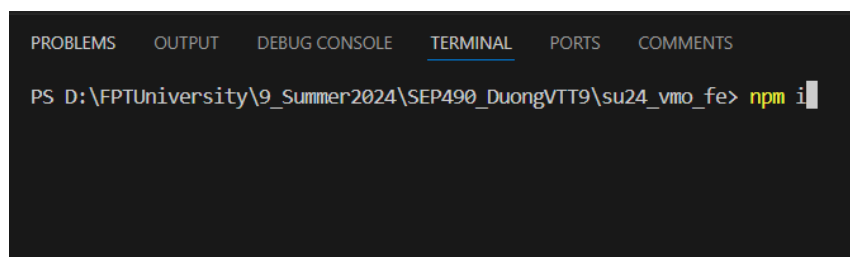

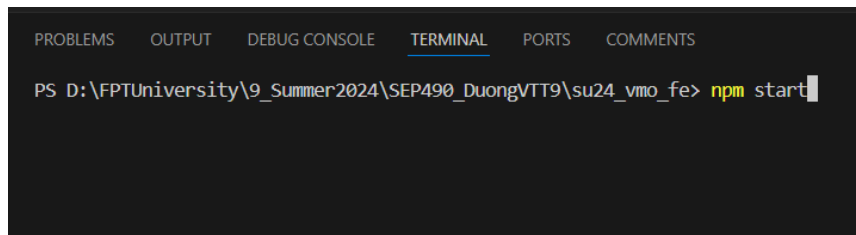

Figure 153 - Command: npm i

- Step 9: Run command: npm start (Test the project on the local machine)

```

PROBLEMS  OUTPUT  DEBUG CONSOLE  TERMINAL  PORTS  COMMENTS

PS D:\FPTUniversity\9_Summer2024\SEP490_DuongVTT9\su24_vmo_fe> npm start
  
```

Figure 154 - Command: npm start

- Step 10: Open <http://localhost:3000> to see if the website opens up
- Step 11: Run command: npm run build => npm start (Check if there are any build errors)

2.2.2 Back-end

- Step 1: Download and run the latest version of Visual Studio Community edition from <https://visualstudio.microsoft.com/downloads/>

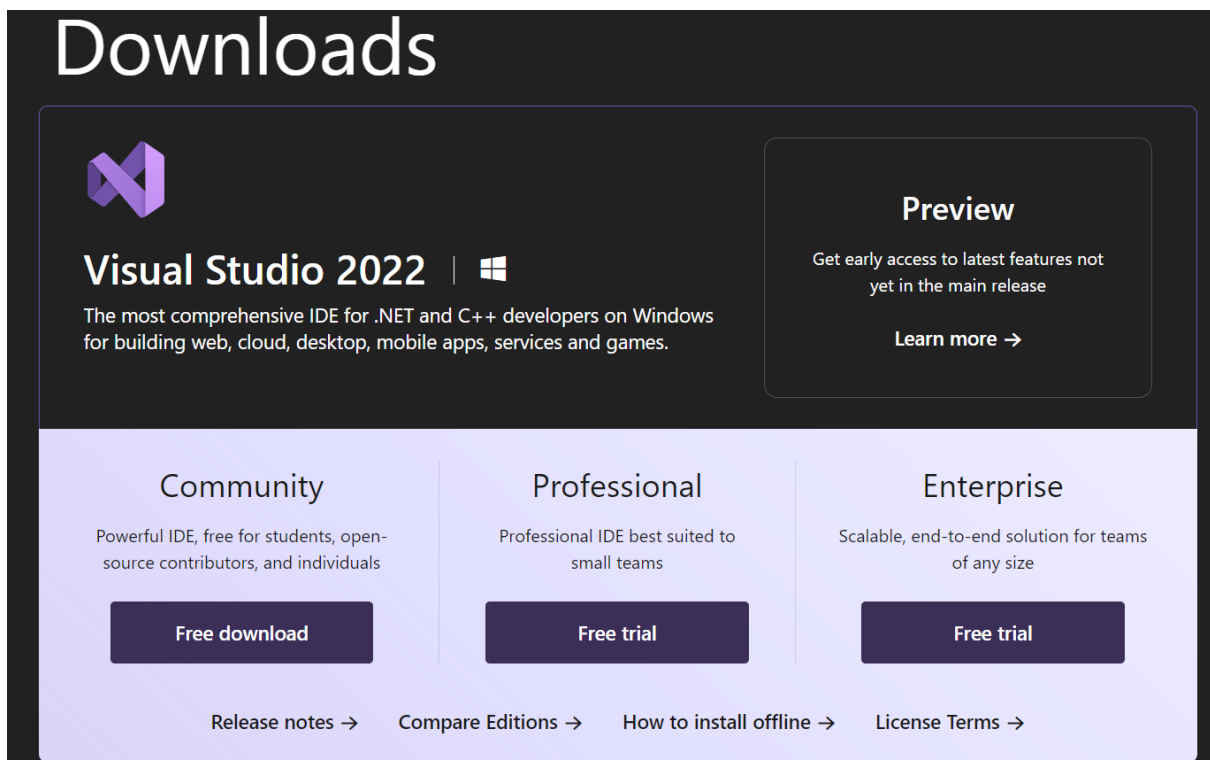

Figure 155 - Download Visual Studio screen

- Step 2: In the Workloads screen, choose ASP.NET and web development & Azure development Then click “Install while downloading”

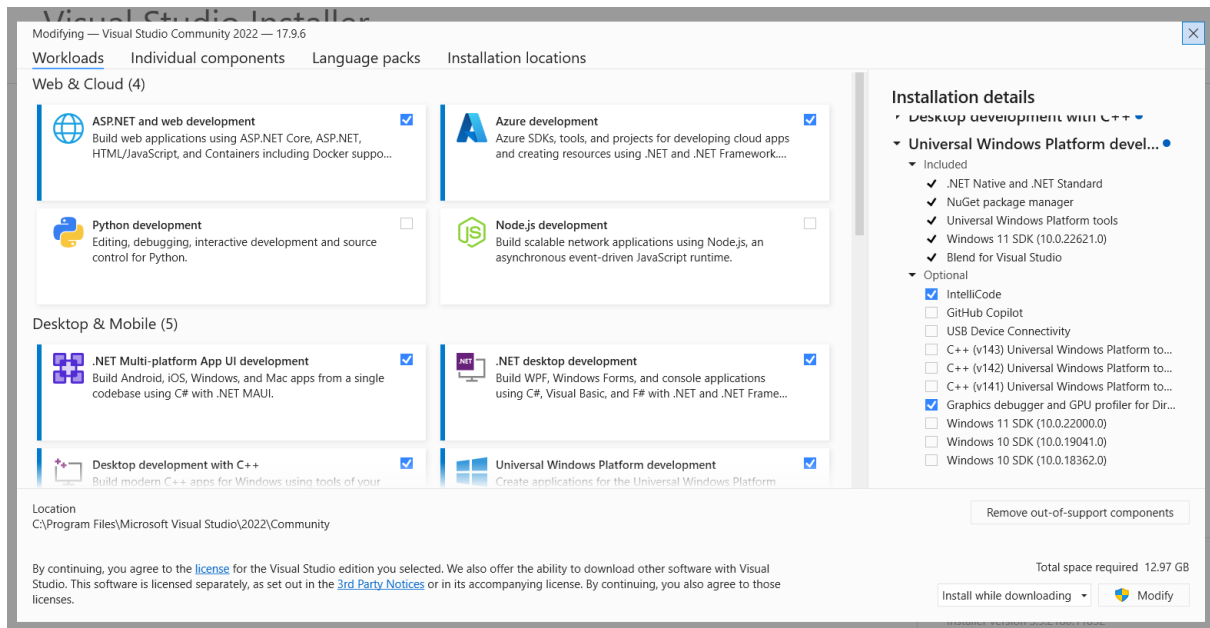

Figure 156 - Visual Studio Workloads screen

- Step 3: Navigate to the folder you want to install the project in, open CMD by right-clicking > “Open in Terminal” and type the commands below to get the source code

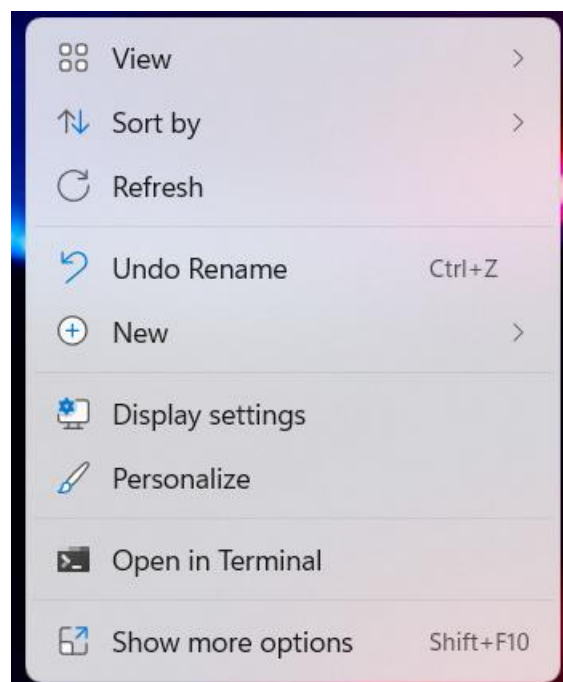

Figure 157 - Open in Terminal for Git commands

- `git clone https://github.com/SU24VMO/su24_vmo_be_2.git`
- Step 4: Navigate to **su24_vmo_be/SU24_VMO_API**, click on the solution file (or open the solution from Visual Studio)

 SU24_VMO_API	6/3/2024 7:09 PM	File folder	
 .gitignore	6/3/2024 7:09 PM	Git Ignore Source ...	8 KB
 SU24_VMO_API.sln	6/3/2024 7:09 PM	Visual Studio Solut...	3 KB

Figure 158 - Project Solution file

- Step 5: On the Solution Explorer tab, right click on the **SU24_VMO_API** project

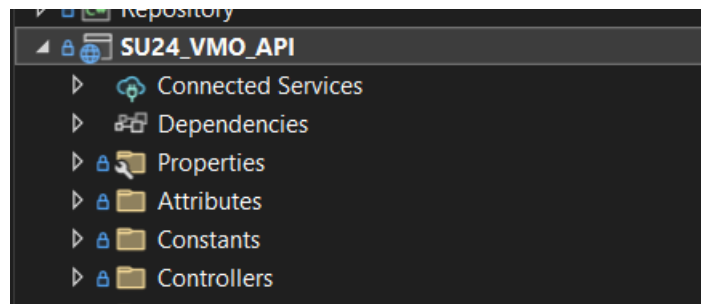

Figure 159 - Main Startup Project

- Step 6: Click on Set as startup project

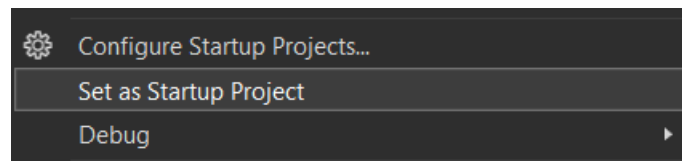

Figure 160 - Set as Startup Project option

- Step 7: Click on the solid green arrow to run in Debug mode, and the outlined arrow to run without Debugging

Figure 161 - Run project

3. User Manual

3.1 Overview

- Workflow 1:
 - Organization Manager login to VMO website
 - Organization Manager click “Quản lý tổ chức” button on menu bar and click “Chiến dịch từng phần” on the left menu
 - Organization Manager click “Tạo chiến dịch” button
 - Organization Manager fill all the field that need to create a new campaign then click “Gửi” button
 - Moderator login to VMO website
 - Moderator click “Yêu cầu tạo chiến dịch” tab
 - Moderator click expand button of campaign and click “Cập nhật trạng thái”

- Moderator approves the campaign request
- Organization Manager received a notification create new campaign successfully
- Workflow 2:
 - Member login to VMO website
 - Member hover to “Mở rộng” tab in menu bar
 - Member click “Chiến dịch”
 - Member click on campaign
 - Member click “Ủng hộ” button
 - Member fill money amount, wishes, anonymous or not then click “Ủng hộ”
 - Member accept terms of use
 - Member view QR Code, use smartphone to scan and input the correct amount initially entered and transfer the money
 - Member received a notification donate successfully
 - Member click on picture profile on the top-right of page and click “Xem trang cá nhân”
 - Member view the history of donation
- Workflow 3:
 - Admin login to VMO website
 - Admin click “Sao kê giao dịch từng phần” tab in menu tab
 - Admin click on expand button on campaign
 - Admin click “Cập nhật trạng thái”

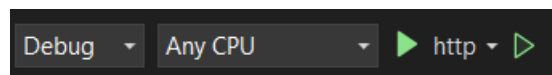

Figure 228 - プロジェクトを実行します

3. ユーザーマニュアル

3.1 概要

- ワークフロー 1:
 - 組織マネージャーは VMO ウェブサイトにログインします
 - 組織マネージャーは、メニューバーの「Quản lý tổ chức」ボタンをクリックし、左側のメニューの「Tất cả chiến dịch」をクリックします
 - 組織マネージャーは「Tạo chiến dịch」ボタンをクリックします
 - 組織マネージャーは新しいキャンペーンを作成するために必要なすべてのフィールドに入力し、「Gửi」ボタンをクリックします
 - モデレーターは VMO ウェブサイトにログインします
 - モデレーターは「Yêu cầu tạo chiến dịch」タブをクリックします
 - モデレーターはキャンペーンの展開ボタンをクリックし、「Cập nhật trạng thái」をクリックします
 - モデレーターはキャンペーン リクエストを承認します
 - 組織マネージャーは新しいキャンペーンが正常に作成されたという通知を受け取ります
- ワークフロー 2:
 - メンバーは VMO ウェブサイトにログインします
 - メンバーはメニューバーの「Mở rộng」タブにマウスを移動します
 - メンバーは「Chiến dịch」をクリックします
 - メンバーはキャンペーンをクリックします

- メンバーは「Ủng hộ」ボタンをクリックします
- メンバーは金額、願い、匿名を希望するかどうかを入力し、「Ủng hộ」をクリックします
- メンバーは利用規約に同意します
- メンバーはQRコードを表示し、スマートフォンを使用してスキャンして最初に入力した正しい金額を入力し、送金します
- メンバーは寄付が成功したという通知を受け取ります
- メンバーはページ右上の写真プロフィールをクリックし、「Xem trang cá nhân」をクリックします
- メンバーは寄付の履歴を閲覧できます
- ワークフロー3:
 - 管理者は VMO ウェブサイトにログインします
 - 管理者はメニュータブの「Sao kê giao dịch từng phần」タブをクリックします
 - 管理者はキャンペーンの展開ボタンをクリックします
 - 管理者は「Cập nhật trạng thái」をクリックします
 - 管理者はQRコードで組織管理者に資金を送金し、アップロードする明細書文書を選択します
 - 管理者は「Xác nhận」ボタンをクリックします
 - 組織マネージャーは、メニューバーの「Quản lý tổ chức」ボタンをクリックし、ページ左側のメニューの「Tất cả hoạt động」をクリックします
 - 組織マネージャーは「Tạo hoạt động」ボタンをクリックします
 - 組織マネージャーは新しいアクティビティを作成するために必要なすべてのフィールドに入力します
 - モデレーターは「Yêu cầu hoạt động từng phần」タブをクリックします
 - モデレーターはアクティビティの展開ボタンをクリックし、「Cập nhật trạng thái」をクリックします
 - モデレーターはアクティビティリクエストを承認します
 - 組織マネージャーは新しいアクティビティが正常に作成されたという通知を受け取ります
 - 組織マネージャーは、メニューバーの「Quản lý tổ chức」ボタンをクリックし、ページ左側のメニューで「Giai đoạn hoạt động thiện nguyện」をクリックし、「Giai đoạn hoạt động từng phần」をクリックします
 - 組織マネージャーは「Kết thúc giai đoạn」をクリックし、「Xác nhận」ボタンをクリックします
